Global recognition
Graduate with a highly regarded qualification. Continuously, Monash is identified more than 4500 leaders from the world’s most successful companies as one of the top universities worldwide from which to hire.

Expertise
Gain from the expertise of our world-class academics and research leaders throughout your studies. These are the people who will guide and supervise your progress.

Professional recognition
Be confident in knowing that what you study at Monash will satisfy the educational requirements of professional registration or membership for entry into regulated professions. ^

Prestige
The value of your degree comes from knowing that you will be awarded a qualification from a university that is consistently ranked in the world’s top 100.

Choice
A range of courses to choose from at Monash. You have access to one of Australia’s most comprehensive ranges of postgraduate courses and can combine two to create double master’s program.

Connections
Benefit from our extensive global network of campuses and centres. This gives you access to Monash partnerships and alliances with universities in North America, Europe, the UK, Asia and Africa.

Relevance
Undertake your course confident in knowing that as a research-intensive university, our courses are designed using the latest research and industry developments.

Location
Come and enjoy the lifestyle and richness of Melbourne, Australia – the world’s most liveable city*. Economist Intelligence Unit, 2011 to 2014.

Scale
The diversity you will experience throughout your studies and in the people you meet comes from joining Australia’s largest university. The Monash network you will belong to is unparalleled with campuses across four continents and over 60,000 students studying with it in any given year.

Top 100
Monash is ranked in the top 100 of world universities.

Monash University is rated 5+ Stars based on 8 categories
Research Employability Teaching Facilities Internationalisation Innovation Specialist criteria Inclusiveness

Monash University is the only Australian member of the prestigious M8 Alliance of Academic Health Centres and Medical Universities. This global grouping includes Johns Hopkins University, the Barts and the London School of Medicine in London, Imperial College London and the Charité in Berlin.

Monash University is a member of Australia’s Group of Eight universities. The group’s members produce more than 70 per cent of all basic research conducted at all of Australia’s public universities.

Monash is a five-star plus institution. Receiving five-star ratings in a range of qualities from employability to sport facilities and community engagement. This means we are not just world-class but an elite destination to which the very best students and faculty worldwide aspire.

Alliances

^ All students should ensure that the units they take are those required for the profession of their choice. Advice on unit selection is available from course advisers.

"Ancora Imparo"
I am still learning
Your study options

Whether you want to get ahead in your career faster, or simply just improve your knowledge, a Monash postgraduate degree can give you a distinct advantage.

Professional entry master’s courses
Some postgraduate courses are specifically designed to prepare people who have completed an undergraduate degree to enter a regulated profession such as law, accounting or teaching. These courses can be two to four years depending on the discipline. While some of these professions can also be studied at undergraduate level, you might make the decision to enter the professional course after you have completed your first degree.

Expert master’s courses
These courses allow you to either extend knowledge and expertise gained through your undergraduate degree or add breadth to your knowledge and skills within a new or complementary field. If you complete a four-year bachelor’s degree, you can usually complete an expert master’s degree in the same discipline in only one year meaning you graduate with both a bachelor’s and a master’s degree in five years.

Research
Monash offers research-based postgraduate courses in most disciplines. These courses offer you the opportunity to pursue your passion in a supportive environment while working with some of the brightest minds. A postgraduate research degree can take between one and four years of full-time study.

Study modes

We understand that postgraduate student’s have many priorities and commitments. That’s why we offer flexible study modes to allow you to build your study around your life.

Most courses are offered in both full-time and part-time study modes. Some units are offered in intensive block mode (usually Thursday to Sunday) allowing you to arrange a short break from work to complete a unit. It’s what works best for you.

Off-campus (Distance learning)
You don’t have to be at Monash to study with Monash. Through our online distance learning, you can study with Australia’s biggest and best-known university without ever having to set foot on campus. It’s the perfect option if you need to balance university with work, family and other personal commitments. You’ll study the same units and gain the same qualification as you would if you were on campus. It includes a combination of print study material and electronic communication. A full list of courses available through distance learning can be found on page 101 of this guide.

Length of programs

Many of our master’s programs offer you block credit on the basis of your education background.

1 year programs
If you wish to study a master’s in the same discipline for which you have a four-year honours qualification it usually takes one -year (48 credit points).

1.5 year programs
If you wish to undertake a master’s program in the same discipline as your three-year undergraduate qualification it will usually be a 1.5 year program (72 credit points).

2 year programs
If you wish to undertake a master’s program in a different discipline to your three-year undergraduate qualification it will usually take two years (96 credit points).
If you’re looking for a doctorate with a difference, look no further than the doctorate with a difference, The Monash PhD.

Deeply embedded in his community, Brendan is also the co-founder and former principal of the Pavilion School – a Victorian Government school that seeks to provide the highest standard of public education for adolescents who are disengaged from education. He was awarded the Victorian Outstanding Secondary Teacher Award in 2009 as well as the inaugural Australian Federal Government Closing the Gap Award. Having completed his Master of Education in 2010, Brendan now intends to pursue a PhD.

Michelle leads a team at Monash Institute of Pharmaceutical Sciences working on a project to develop an aerosol delivery system for oxytocin that can be inhaled by patients from a simple, disposable device immediately after childbirth. Every year more than 100,000 women die of postpartum haemorrhage (PPH), a condition of excessive blood loss after childbirth. Although PPH can be effectively prevented or treated with an injection of oxytocin, access to this drug is limited due to the requirements for refrigeration, storage and trained medical personnel for administration. Our graduates

Brendan Murray  
Master of Education 2010  
Brendan is the Executive Principal of Parkville College – a Victorian Government School established to provide quality education for all young people detained in custody.

Dr Michelle McIntosh  
Bachelor of Pharmacy, 1997; PhD, 2000; Graduate Certificate in Higher Education, 2009  
Michelle leads a team at Monash Institute of Pharmaceutical Sciences working on a project to develop an aerosol delivery system for oxytocin that can be inhaled by patients from a simple, disposable device immediately after childbirth. Every year more than 100,000 women die of postpartum haemorrhage (PPH), a condition of excessive blood loss after childbirth. Although PPH can be effectively prevented or treated with an injection of oxytocin, access to this drug is limited due to the requirements for refrigeration, storage and trained medical personnel for administration.

Neel Villaroman  
Doctor of Laws, 2014  
Dr Neel Villaroman was appointed at the United Nations (UN) Department of Political Affairs in April 2014. His work in the UN provides expert advice about the international legal protection of ethnic and religious minorities to UN agencies, government institutions and academia across the Middle East. Dr Villaroman also has a forthcoming book, Treading on Sacred Grounds: Places of Worship, Local Planning and Religious Freedom in Australia based on his PhD thesis to be released in 2015.

Who was Sir John Monash?

Sir John Monash was an Australian leader, statesman and nation-builder that contributed to almost every level of Australian life. As well as a long and distinguished military career, Sir John was a renowned engineer and public administrator. He also features on the Australian $100 note.

He was a man who used education to turn his natural talent into ability, allowing him to realise his ambitions. Not only do we carry Sir John’s name, we also take inspiration from his philosophy of life.

Although Monash University is named after an individual, the University is also the University is also a public government-funded and accredited institution.

Our motto, Ancora Imparo “I am still learning”, captured the essence of his approach to life.
Our research tradition

Even before we became the global university we are today, our researchers looked beyond traditional boundaries, creating new frontiers and discovering new ways of approaching the fields in which they worked. It’s why a Monash education is respected around the world. Things that we now take for granted would not exist without the initial work of Monash researchers:

First in-vitro fertilisation pregnancy
Professors Alan Trounson and Carl Wood achieved the world’s first IVF pregnancy in 1973. The Trounson and Wood team went on to achieve Australia’s first (and the world’s fourth) successful IVF birth in 1980.

Fighting influenza
In 1986, a team from our Faculty of Pharmacy and Pharmaceutical Sciences (formerly the Victorian College of Pharmacy) designed and synthesised the anti-flu drug, Relenza. Relenza first became available in Australia in 1999 and is now used globally.

Nobel Peace Prize
In 2007, eight scientists from Monash University shared in the prestige of the 2007 Nobel Peace Prize, awarded jointly to the Intergovernmental Panel on Climate Change and former US Vice-President Al Gore.

We judge our research not only by its academic excellence, but by the impact it has on the communities we engage with and serve.

Today and tomorrow

Today our ambition and optimism are stronger than ever. We have a clear vision of what we want our research to achieve and how we’ll help our researchers make it happen. Although we conduct research across over 150 fields of study we focus on a number of specialisations. We call these our leading capabilities. We’ve grouped these capabilities into four categories:

- Health and wellbeing
- Future technologies
- Sustainable environments
- Resilient cultures and communities.

Building stronger, lighter planes
Professor Xinhua Wu and her team at the Monash Centre for Additive Manufacturing (MCAM) are creating a new aluminium alloy that will make aircraft 30 to 40 per cent lighter, twice as fuel efficient and still structurally sound. So significant is this project that they are working in close partnership with Microturbo, the European Space Agency and Bombardier.

Helping the blind to see
The Monash Vision Group (MVG), draws on the capabilities of Monash University, The Alfred hospital, and industry partners MiniFAB and Grey Innovation to develop bionic eye technology which connects to the primary visual cortex.

This means that patients unable to make use of current retinal implants because of damaged optic nerves or physical trauma to the actual eyes may now have the opportunity to see again.

Super sand
Monash has teamed up with Rice University (USA) to create a ‘super sand’ which acts as an inexpensive filtration device in third-world countries. They have significantly enhanced the natural filtering properties of sand by coating it with a nanomaterial called graphite oxide (GO). Lack of clean drinking water is the cause of over 2.5 million deaths per year according to the WHO.

Eliminating disease
The Eliminate Dengue Program, led by Monash University’s Professor Scott O’Neill, uses a naturally occurring bacteria (Wolbachia) to reduce the ability of mosquitoes to pass dengue between people. Dengue fever affects an estimated 390 million people worldwide annually and is ranked by the World Health Organisation (WHO) as the most important mosquito-borne viral disease in the world.

Read more about the amazing work, and ambitious plans for the future in MONASH: Delivering Impact online at monash.edu/monashmag
Monash University has five Australian campuses as well as the Monash Law Chambers in Melbourne’s CBD. We also have a campus in Malaysia, a Joint Graduate School in China, a learning centre in Prato, Italy, and a research centre in Mumbai, India. Monash University awards are delivered at other locations, including at Monash South Africa.

**Campuses and locations**

Monash University has five Australian campuses as well as the Monash Law Chambers in Melbourne’s CBD. We also have a campus in Malaysia, a Joint Graduate School in China, a learning centre in Prato, Italy, and a research centre in Mumbai, India. Monash University awards are delivered at other locations, including at Monash South Africa.

**Parkville**

*Drive time: 3 km, approx. 10 minutes*

Located three kilometres north of Melbourne’s city centre, the Parkville campus houses about 2000 students from the Faculty of Pharmacy and Pharmaceutical Sciences, with first-class teaching facilities, innovative learning spaces and research laboratories. The campus is home to the Centre for Medication Use and Safety and the Monash Institute of Pharmaceutical Sciences, which comprises the largest and most experienced group of pharmaceutical scientists in Australia.

**Melbourne CBD**

*All postgraduate law courses are taught at the Monash Law Chambers located at the heart of the city’s legal precinct at 555 Lonsdale Street within walking distance of the Magistrates’, County and Supreme courts. The Law Chambers provides independent study areas and amenities conducive to creative and independent learning.***

**Berwick**

*Drive time: 40 km, approx. 40 minutes*

Berwick is a small, friendly campus with about 2000 students approximately 40 minutes south east of Melbourne. It’s a five-minute walk from the heart of Berwick’s specialty shops, cafes and business services. Berwick campus offers courses in business and education.

**Peninsula**

*Drive time: 40 km, approx. 40 minutes*

The Peninsula campus has about 4000 enrolled students. Situated about 40 minutes south of Melbourne, it is a centre for training health professionals and health and physical-education practitioners. It is also being developed as a centre for health-science research. There is a bus connection to Frankston train station, and a free shuttle-bus runs between Peninsula and Clayton campuses.

**Clayton**

*Drive time: 20 km, approx. 25 minutes*

Clayton is the largest of Monash’s campuses, with about 28,000 students enrolled. It combines a vibrant research, technology and manufacturing precinct with first-rate sporting facilities, shops, a student centre, libraries, a post office, banks, medical services and religious centres. The campus can be reached by public transport utilising an extensive bus network combined with train stations in surrounding suburbs.

All times and distances are approximate and use the most direct driving route from the Melbourne CBD.
Accommodation

at Monash

On-campus accommodation

On-campus accommodation gives you a convenient, safe and enjoyable living environment. Living close to campus facilities ensures easy access to classes, libraries and university life. It’s also a great way to concentrate on your studies, and you are part of a community of people also committed to their courses. You become a part of the programs, activities and pastoral care we offer.

It is a secure environment created by a 24-hour Monash security presence, and the costs are highly competitive with all rooms fully furnished. Places fill quickly, so you should apply for accommodation as early as possible at: monash.edu/mrs

Off-campus accommodation

Monash Residential Services provides guidance, information, resources and advocacy to students of Monash University.

The service assists with accommodation-related matters prior to arrival and during your entire time at Monash University. We can help every step of the way on:

- how to source appropriate accommodation
- tenancy legal information on what tenants need to know prior to and during their tenancy
- support with any difficulties experienced with landlords, agents or housemates
- other accommodation-related matters.

For more information go to mrs.monash.edu/offcampus

In 2016, Monash is adding four new halls of residence. These will be located right in the heart of our Clayton campus within easy walking distance to entertainment, shopping and lecture theatres. Monash is truly a city within a city.

Monash helps students settle into university life by providing an extensive range of support programs and services.

**Academic support**
During their studies, students have access to academic support programs to improve written and oral expression, reading, listening and note-taking skills. Tutors are available to guide advanced students through research methodology, conference presentation and the best way of submitting academic papers.

- [monash.edu/counselling/academic-support](monash.edu/counselling/academic-support)

**Campus security**
While Melbourne is considered the world’s most livable city, Monash still looks out for students’ welfare. We provide a range of security services to ensure our students are safe at all times. These include 24-hour security patrols, security escorts and a night-time security bus between our Clayton and Caulfield campuses.

- [monash.edu/safety-security](monash.edu/safety-security)

**Careers counselling**
We offer individual careers counseling, host career seminars and employer information sessions, where many of Australia’s leading companies participate to attract new talent, as well as providing programs to assist job hunting and resume building.

- [monash.edu/careers](monash.edu/careers)

**Disability support services**
If you have a disability or medical condition that impedes your study, the Equity and Diversity Centre will support you to reach your full potential. Eligible students can access services such as learning support, assistive software or equipment loans.

- [monash.edu/equity-diversity](monash.edu/equity-diversity)

**Family support**
Monash Family and Child Care supports Monash students with children or families. Advice is available regarding childcare, primary school, playgroups, school holiday care and other child and family support issues.

- [monash.edu/childcare](monash.edu/childcare)

**Monash Connect**
Monash Connect Student Service Centres are located on each of the Australian campuses. Staff can deal with your questions on admissions, enrolment, fees, academic support, language support, graduations and scholarships.

- [monash.edu/connect](monash.edu/connect)

**Skills Essentials seminars**
The Skills Essentials seminar series comprises more than 160 seminars and workshops, specifically designed for postgraduate research students. Most sessions are free of charge and provide postgraduate students with valuable training in areas relating to candidature and skills for future employment.

- [mpa.monash.edu/research-postgrads](mpa.monash.edu/research-postgrads)

**Wellbeing**
Each Monash campus features a Health, Wellbeing and Development Hub that offers expert health and wellbeing counsellors, medical practitioners, multi-faith chaplains and student advisers to support students in all facets of university life – from accommodation and financial aid to work/study and life balance issues. Information and advice is available for students on a wide range of issues including:
- settling into life in Australia
- cultural adjustment
- student visa
- health care
- finding your way around campus
- study and life balance issues.

- [monash.edu/health-wellbeing](monash.edu/health-wellbeing)

**e-Research Services**
The Monash e-Research Centre provides all Monash researchers with access to outstanding advice and assistance – to help you manage your research projects and data effectively and efficiently. The centre can give you the advice, information and assistance you need to help you identify, specify, develop and configure IT tools, data management systems and practices to meet your specific needs.

- [platforms.monash.edu/eresearch](platforms.monash.edu/eresearch)

**Monash Postgraduate Association (MPA)**
All Monash postgraduate students automatically become members of the Monash Postgraduate Association. In addition to its seminar program, the association provides services for postgraduate students, including:
- social functions such as lunches, coffee clubs and question-and-answer sessions
- newsletters and publications including Compass, MPA guide to postgraduate programs and a weekly MPA email newsletter
- advice, advocacy and mediation on issues that postgraduate students may encounter during their study
- representation on Monash University and faculty committees
- seminars to help you make the transition from successful study to a successful career; these seminars address helpful topics like publishing, time management, career management and writing skills.

- [mpa.monash.edu](mpa.monash.edu)
Art, Design and Architecture

Monash Art Design & Architecture (MADA) is a place of creative excellence and innovation. Operating out of the Caulfield campus, our vibrant faculty is at the forefront of education in creative arts, architecture and design disciplines.

- Be creative in our cutting-edge studio spaces.
- Learn from the industry’s leading designers, architects and ground-breaking thinkers.
- Make your mark by pushing the creative boundaries of art and design.
- Get inspired from across the globe; study at our Prato Centre in Italy.

Alex Martinis Roe
Bachelor of Fine Art
Doctor of Philosophy

An international perspective and a strong focus on art theory and research have driven Alex Martinis Roe’s success since she completed her Doctor of Philosophy at Monash University with the Silver Jubilee Scholarship in 2010. Alex was further awarded a 2013 Anne and Gordon Samstag International Visual Arts Scholarship, enabling her to undertake post-doctoral research overseas.

Alex first came to Monash as a Bachelor of Fine Art student, where she began to create intellectually engaging works that demanded careful consideration and often engagement from her audience.

“The work I made for my solo exhibition in Dublin in 2011 was a real turning point for me. I managed, for the first time, to bring other people’s voices into an exhibition of mine, in a way that I felt I was happy with, in terms of its politics.”

Through solo exhibitions in Europe, Korea and Australia, Alex is now making a name for herself in international contemporary art. Her current projects focus on feminist genealogies and seek to foster specific and productive relations between different generations, as a way of participating in the construction of feminist histories and futures.

“Motivated by an intense interest in the quality and affect of relations between people and texts, I work as an artist in order to practice a politics of sexual difference,” Alex said.

“This is a positive practice that affirms its genealogy within the history of feminist art practice and then sometimes ruptures it toward a future symbolisation of difference.”

Pictured left: Alex Martinis Roe, A Box for Vertical Relations, 2012
Twenty-four borrowed library books by female authors who have had interpersonal and/or textual relations to the authors either side of her in the stack. 41.6cm x 36.7cm x 46.1cm

ART, DESIGN AND ARCHITECTURE

Coursework

Master of Architecture

LOCATION: Caulfield
DURATION: 2 Years
ENTRY REQUIREMENTS: See page 88
FEES p.a.: Full fee: $30,300

The Master of Architecture is a professional entry master’s degree designed to qualify you to practice as an architect after you have completed an undergraduate degree. It is ideal if you are seeking to complete your architectural education. You will be trained to have the vision to design progressive architecture that responds to the needs of contemporary society and speculate about the future.

Course code: 3120

Master of Design

LOCATION: Caulfield
DURATION: 1.5 Years
ENTRY REQUIREMENTS: See page 88
FEES p.a.: $28,000

The Master of Design enables designers to advance their professional practice by focusing in-depth on projects for an extended period, offering an opportunity not often available to designers working in a commercial setting. With the support of academic staff, you can develop a self-directed project. You will gain an expert understanding of the design process as you plan and investigate concepts, deliver a design outcome and evaluate your response to the brief.

Course code: 3113

Master of Interaction Design

LOCATION: Caulfield
DURATION: 2 Years
ENTRY REQUIREMENTS: See page 88
FEES p.a.: $28,000

Interaction designers develop digital or ‘smart’ products, systems and environments. They consider the behaviour of people and the context in which users interact with technology. Drawing on concepts from industrial design, engineering, computer science and psychology, interaction designers integrate technology into our daily lives. The Master of Interaction Design includes tangible interaction design, which explores the physical characteristics of a product, as well as the application of innovative technology in design.

Course code: 3124

Master of Multimedia Design

LOCATION: Caulfield
DURATION: 2 Years
ENTRY REQUIREMENTS: See page 88
FEES p.a.: $28,000

The Master of Multimedia Design has been developed for students seeking skills in multimedia and screen-based design, from motion graphics to digital publishing. In a mix of studio classes and lectures, you will learn to balance creative expression with practical professional skills. You will deliver projects to briefs, using industry-standard software and with the guidance of expert designers. In the final semester you will complete a major, self-directed project.

Course code: 3111

Research

Doctor of Philosophy

LOCATION: Caulfield
DURATION: 3 – 4 Years
ENTRY REQUIREMENTS: See page 88
FEES p.a.: $28,000

The Doctoral program at Monash rigorously trains you in research through academic supervision, plus a suite of seminars, discussion groups and coursework units. Monash has grown into a large and multifaceted institution supporting a wide range of research activities. Monash Art Design & Architecture has introduced doctoral studies to support the specific needs of the visual art, design and architecture disciplines with specialisations in:
- Architecture
- Fine Art
- Design
- Art History & Theory
- Curatorial Practice

This has included the development of a unique studio-based PhD, wherein practising artists, designers and architects are able to incorporate their studio/project activity within a research framework, at one of the top research universities in the country. The Doctoral program in Art Design & Architecture is offered by either studio-practice mode or traditional thesis only mode.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

Course code: 1322

Master of Design (by research)

LOCATION: Caulfield
DURATION: 2 Years
ENTRY REQUIREMENTS: See page 88
FEES p.a.: $28,000

This is a practice-based research degree that offers you the opportunity to rigorously investigate a topic of individual interest within the sphere of contemporary design. The degree is offered in the principal research areas of visual communication/graphic design, interior architecture, product design, transport design, computer-aided design, multimedia design and industrial design. Students must also complete a sequence of two coursework units, which will guide them through the documentary dimensions of their project.

Course code: 3111

Master of Fine Art

LOCATION: Caulfield
DURATION: 1.5 Years
ENTRY REQUIREMENTS: See page 88
FEES p.a.: $28,000

This practice-based research degree involves you in the independent investigation of a research problem that you have formulated. It is expected that the research undertaken will make a contribution to the discipline in which you are enrolled by applying, clarifying, interpreting or evaluating knowledge. The studio research project develops a body of creative or visual works with accompanying written (exegesis) and visual documentation. The written documentation is a commentary that outlines the development of the project and its conclusion, and provides a critical context within which the work may be viewed and assessed. The original visual works produced and the exegorical text are examined as one for Master of Fine Art candidates. Students must also complete a sequence of two coursework units, which will guide them through the documentary dimensions of their project.

Course code: 2953

Master of Arts

LOCATION: Caulfield
DURATION: 2 Years
ENTRY REQUIREMENTS: See page 88
FEES p.a.: $28,000

The Master of Arts program is offered in art history and theory and focuses on the contextual study of art and design practice. Students explore the intellectual and historical context of art and design, posing critical questions, forming value judgments and articulating their ideas within an imaginative framework. You will be examined entirely on the basis of the written paper, unlike the Master of Fine Art or Master of Design, which focus on visual work. The thesis should be between 30,000 and 40,000 words.

Course code: 0498

* Commonwealth Supported Places (CSP) are available to eligible applicants.
“My PhD taught me a lot about what it means to work in a manner that is mindful of confidentiality, tactful and appreciative of different perspectives. Even the process of ethics clearance teaches you about responsibility and sensitivity in the face of difficult circumstances. The skills learnt through a PhD are definitely transferrable to the workplace.”

Jessica Taft,
PhD Graduate, Faculty of Arts

With almost 10,000 students and 40 areas of study, we are the largest faculty of our kind in Australia. Our academics are experienced specialists in their field who aim at challenging thinking and extending knowledge. Our coursework programs are informed by industry boards, and our research programs are committed to train high quality, internationally recognised scholars who are passionate about producing cutting edge research.

- Our stimulating programs feature professional and industry engagement in a global context.
- Many of our programs offer overseas study opportunities, from short-term study tours, through to full semester length study abroad.
- Soak up the knowledge of some of the greatest minds.

Mel Barnes
Master of Tourism

Mel chose to pursue her postgraduate studies alongside her full-time career, to have an advantage over other graduates in a competitive job market.

“Tourism isn’t all about holidays! The program has an interdisciplinary focus and covers a wide range of academic fields. Lectures are available outside business hours and block subjects are a fantastic option for full-time workers. I recently took one week of annual leave to complete subject course work in Fiji. This allowed for full immersion into the program and fieldwork study. Staff in the Graduate Tourism program understand the commitments involved in working and studying full time and they are only a phone call or email away.”

monash.edu/arts

Our coursework programs are informed by industry boards, and our research programs are committed to train high quality, internationally recognised scholars who are passionate about producing cutting edge research.

- Our stimulating programs feature professional and industry engagement in a global context.
- Many of our programs offer overseas study opportunities, from short-term study tours, through to full semester length study abroad.
- Soak up the knowledge of some of the greatest minds.

Mel Barnes
Master of Tourism

Mel chose to pursue her postgraduate studies alongside her full-time career, to have an advantage over other graduates in a competitive job market.

“Tourism isn’t all about holidays! The program has an interdisciplinary focus and covers a wide range of academic fields. Lectures are available outside business hours and block subjects are a fantastic option for full-time workers. I recently took one week of annual leave to complete subject course work in Fiji. This allowed for full immersion into the program and fieldwork study. Staff in the Graduate Tourism program understand the commitments involved in working and studying full time and they are only a phone call or email away.”

monash.edu/arts
Master of Applied Linguistics

LOCATION
Clayton
OFF-campus study available

INTAKE
February and July

FEES p.a.
$19,700

DURATION
1, 1.5 or 2 Years* (duration may vary depending on prior qualification)

As the most established program of its type in Australia, the Master of Communications and Media Studies has built up a long record of success. The program draws strongly on specialist expertise and focuses on fostering industry ready graduates. The course is particularly relevant to those employed or seeking employment in communications and media industries (for instance, electronic journalism, policy formulation, public relations, or tourism marketing), as well as those who wish to expand their expertise for teaching purposes or further study. You will be introduced to the latest developments and research in communications and media - including in social and online media always with a view to "real world" application. Study units feature guest professional speakers in conjunction with industry focussed field trips to media outlets in Sydney, Melbourne and Shanghai.

In the Master of Communications and Media Studies course, you will have the opportunity to undertake industry internships in Australia and overseas. For example, students in our program have recently completed internships with the United Nations in New York and with Shandong Television in China.

Course code: A6001

Master of Biotechics

LOCATION
Clayton
OFF-campus study available

INTAKE
February and July

FEES p.a.
$19,700

DURATION
1, 1.5 or 2 Years* (duration may vary depending on prior qualification)

While a Master of Biotechics is particularly well suited to health care professionals and scientists who face complex ethical issues in their working lives, it also offers important skills development for those formulating related public policy and law, as well as for anyone who wishes to explore issues of public concern.

An interdisciplinary approach is taken to key ethical issues such as ethical theory, questions of life and death (for example in patient care, human research ethics, legal and policy issues in bioethics, and ethical issues in professional life. It is suitable for students with little or no prior background in ethics or philosophy, but also for philosophy graduates with an interest in further study of bioethics.

You will have the opportunity to engage with industry and participate in study tours and field schools, both in Australia and overseas. For example, you may undertake collaborative work with the World Health Organisation, either at Monash or Geneva.

The teaching staff has an excellent reputation for research and teaching, and they are active and prominent contributors to public debate and professional discussions about a variety of issues in bioethics. The Monash University Centre for Human Bioethics is one of the world’s top eighty bioethics centres.

Course code: A6000

Master of Cultural Economy

LOCATION
Clayfield

INTAKE
February and July

FEES p.a.
$19,700

DURATION
1, 1.5 or 2 Years* (duration may vary depending on prior qualification)

The Master of Cultural Economy is a program built on the recognition that contemporary culture is a growing economy. Music, film, new media, computer games, publishing, music, the visual and performing arts, tourism, crafts, design and fashion all draw on dynamic cultural industries and provide an entry point to this field.

While the Master of Cultural Economy program does not focus on fostering industry ready graduates, it will provide students with the skills necessary to pursue graduate studies or professional careers in the cultural economy. Once graduated, students may find opportunities in various sectors of the cultural economy, such as arts, tourism, crafts, design and fashion.

Course code: A6004

Master of Environmental and Sustainability

LOCATION
Caulfield

INTAKE
February and July

FEES p.a.
$22,200

DURATION
1, 1.5, or 2 Years* (duration may vary depending on prior qualification)

The Master of Environmental Management and Sustainability confronts some of the world’s biggest challenges: the future of our environment and natural resources; building environmentally-friendly businesses and economies; and sustainable development which ensures social justice. It will engage you with new theoretical and practical approaches for creating healthy environments, responsible corporations, socially just and democratic societies, and equitable and sustainable economies.

Master of International Relations

LOCATION
Caulfield and Clayton

INTAKE
February and July

FEES p.a.
$19,700

DURATION
1, 1.5, or 2 Years* (duration may vary depending on prior qualification)

Our world is shaped by big questions about global justice, war, peace, social movements, and inter-state relations. The Master of International Relations enables you to deal critically and analytically with such questions, providing a window into the dynamic world of 21st century politics. The course explores the security, ethical, legal and economic dimensions of international relations. You will examine key issues of foreign policy, world order, European studies, crisis management and terrorism, as well as the gender, development and governance aspects of global politics. We offer four specialisations:

■ Governance and security
■ International diplomacy and trade
■ Political violence and counter-terrorism
■ Rights and justice.

Master of International Development Practice

LOCATION
Caulfield

INTAKE
February and July

FEES p.a.
$19,700

DURATION
1, 1.5, or 2 Years* (duration may vary depending on prior qualification)

Want to improve the well-being of millions of people worldwide? This course will help you tackle the political, economic, cultural and ecological challenges leading to extreme poverty, poor health, fragile governance, inequality and environmental vulnerability. All of these issues require professionals with the practical skills and analytical capacity to build resilience at a national and community level.

Delivered by specialists from the humanities, social sciences, medicine, business and economics, education and law, the course offers a multi-disciplinary approach to sustainable development through a full range of media technologies and insights into approaches to international relations.

Course code: A6016

Master of Journalism

LOCATION
Caulfield

INTAKE
February and July

FEES p.a.
$19,700

DURATION
1, 1.5, or 2 Years* (duration may vary depending on prior qualification)

Do you want to further target your interests and career aspirations? A double degree Masters of International Relations and Journalism provides a comprehensive introduction to the nature of the international political system and some of the key issues in contemporary international relations; an entry-level qualification for a professional journalism career; and a mid-career course for working journalists seeking to extend their expertise and refresh the intellectual basis of their practice. The national and international orientation of the course optimises the contribution graduates make to their profession using a full range of media technologies and insights into approaches to international relations.

LOCATION Caulfield
INTAKE Throughout the year
FEES p.a. RTIS
DURATION 3 – 4 Years

The Doctor of Philosophy in Creative Writing is a research degree that equips students with the skills to conduct original research in the field of creative writing. The program is designed for students who wish to pursue a career in academia or research. See future.arts.monash.edu/double-degrees for further information.

* Credit for prior learning: Students may be eligible for up to 48 credit points for previous honours or graduate level studies in the areas of social sciences/humanities; or, up to 24 credit points for previous undergraduate studies in the areas of social sciences/humanities or honours studies in an unrelated area.

* Commonwealth Supported Places (CSP) available to eligible applicants.
Performance is at the heart of the Monash Sir Zelman Cowen School of Music programs and students can engage in a wide cross section of musical activities, both within and outside formal study programs. You will research and present live performance in a public venue, and submit a written critical commentary on the work. The performance will embody the results of the research and the commentary will address performance context and methodology, demonstrating how the research contributes towards scholarly knowledge.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within three to four years of equivalent full-time study. Your degree will consist of the research project (culminating in a live performance and a written critical commentary) and will require the completion of research training and professional development activities.

Course code: 4088

The course aims to equip you with a sophisticated understanding of the real-world application of your research. It appeals to a broad range of candidates, including theatre professionals, practitioners, educators, honours students and those who want to advance their knowledge and skills in areas such as:

- creating performance work for professional production
- understanding the mechanics of performance making and theatrical production
- exploring methodologies of practice as research in performance (an area recognised as cutting edge in international theatre and performance studies).

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within three to four years of equivalent full-time study. Your degree will consist of the research project (subsuming in a live performance and a written critical commentary) and will require the completion of research training and professional development activities.

Course code: 4066

Translation Studies at Monash adopts an interdisciplinary approach and introduces you to the methodologies of practice as research. You are required to submit a body of translated work together with a critical exegesis. While its focus is on the theory and practice of translation, it draws upon a wide variety of fields, including language, culture and literary studies, linguistics, semiotics, media and technology, sciences, finance and the law.

The main languages available are: Chinese (Mandarin), French, German, Indonesian, Italian, Japanese, Korean and Spanish. The following languages are subject to staff availability: Arabic, Croatian, Russian, Serbian and Ukrainian.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within three to four years of equivalent full-time study.

Your degree will consist of the research thesis (or alternative approved outputs) and will require the completion of research training and professional development activities.

Course code: 4080

A Master of Arts by 100 per cent research enables students to undertake substantial independent research on a chosen topic while under the supervision of an academic. We have 500 plus academics who are active researchers in over 100 different areas. Our areas of research strength include: Cultural Heritage; Environmental Sustainability; Interpreting Cultures; Philosophy and Bioethics; Social and Cultural Theory; Global Change and Global Security; Health, Wellbeing and Social Change; and Performance. While undertaking your research, you will be supervised by an academic whose research expertise aligns with yours. For example, if you’re interested in policing and human rights, you may find yourself working with Professor Sharon Pickering who has just been nominated for a Human Rights Award by The Australian Human Rights Commission for her series of articles – The Conversation’s Academic Expert Panel on Asylum Seekers. When completed, your research should make a significant contribution to the current body of knowledge on your chosen topic.

You may also choose to continue on to a PhD given your new-found skills in applying, clarifying, critiquing and interpreting knowledge. Your degree will consist of a research thesis (or alternative approved outputs).

“Postgraduate study with Monash Business School provides you with the knowledge and confidence to see the bigger picture and explore new opportunities. I have developed expertise in business and management which gives me the skills to pursue my career across a range of industries.”

— Caitlin Bonwick

**Business**

Monash Business School is a progressive academy delivering the highest quality teaching, learning, scholarship and research.

As one of the world’s leading research-intensive business schools, our ambition is to transform business by advancing knowledge and addressing global challenges. We do this by educating the world’s future business and societal leaders and by contributing to the development, growth and transformation of local, national and international economies through our research.

We create business professionals with contemporary skills

We recognise that business is constantly evolving. That’s why we equip you with the skills and knowledge you need to prepare for, and embrace, the challenges that you will face in business, both now and in the future.

Graduating with a degree from one of the world’s top per cent of business schools adds significant value to your resume. Our global reputation ensures you are recognised for your skills and talent – no matter where in the world you choose to pursue your dreams.

A graduate degree in business is a valuable investment in your future and will turn your career goals into actions. Many people use their degree as a springboard for landing a more senior job in their industry, while others take the skills and knowledge they have accumulated to change career direction or launch their own enterprises.

We connect education with industry

Monash Business School is closely aligned with, and has strong links to industry, both in Australia and overseas, to ensure our programs meet the needs of both students and employers.

Master of Business Administration

LOCATION Caulfield, Malaysia
INTAKE January
FEES p.a. $30,060
DURATION 2 Years or 1 Year** (intensive model)**

This course is designed to develop corporate and community leaders by developing your individual leadership and personal capabilities and by teaching you how to manage, lead and transform organisations in a unique way. Leadership and personal development activities complement the academic units and are an integral part of the MBA program. These activities are integrated with each unit of study, and are systematically delivered throughout the course.

As part of the program you will also have access to exclusive career management workshops designed to provide a framework for evaluating your career to date and devising strategies for the future. During the final quarter of your MBA studies at Monash, you will participate in an experiential learning component that honours the qualitative and analytical skills covered in the preceding units of the program into practical, real life activities. This component includes an MBA study tour.

Course code: 0028

Master of Diplomacy and Trade

LOCATION Caulfield
INTAKE February and July
FEES p.a. $27,200
DURATION 1, 1.5, 2 Years* (duration may vary depending on prior qualification)

This course will advance your knowledge across international trade, diplomacy, economics, International law and contemporary international politics. It is designed for people at the start of their careers as well as people working in the field who want to develop their careers within government departments such as the Department of Foreign Affairs and Trade, the United Nations and corporate organisations working in international business environments.

The Master of Diplomacy and Trade is the only postgraduate course in Australia that offers a combination of foreign affairs and international trade policy subjects, with a focus on international development issues. In this course you will gain a solid understanding of the issues facing international trade and development across the globe.

You will also develop essential skills such as evaluating key trends in foreign and trade policy, understanding the implications of international trade rules and providing policy advice in the areas of foreign affairs, trade policy, investment and international business.

Course code: 2643

Master of Economics

LOCATION Caulfield
INTAKE February
FEES p.a. $27,200
DURATION 1, 1.5, 2 Years** (duration may vary depending on prior qualification)

This course provides you with skills in advanced economic tools and experiences in undertaking independent research. It is designed for recent economics graduates and economists in the early stages of their careers. It is ideal if you are interested in pursuing a PhD in economics, as it will give you the opportunity to present research ideas and concepts in a public setting. The course content is directly informed by, and reflects, the current and ongoing research of our lecturing staff.

The Department of Economics is well regarded for outstanding strengths in research – our academics publish in a wide range of top-ranking journals in economics, and the Department has been ranked first in the Oceanic region by Research Papers in Economics (RePEc) for experimental economics.

Course code: 4427

Master of International Business

LOCATION Caulfield, Malaysia, South Africa
INTAKE February and July
FEES p.a. $27,200
DURATION 1, 1.5, 2 Years*** (duration may vary depending on prior qualification)

1.5 Years in Malaysia and South Africa

This course will advance your business and management knowledge and give you the skills to operate from a global perspective. Specifically designed for recent graduates and those in the early stages of their career, this degree will build on your undergraduate credentials.

You will develop vital skills in communications and negotiations across cultures, and develop the capacity for advanced analysis of firm internationalisation, international trade, global investment and corporate strategy.

The course offers a wide range of elective units, which allows you to tailor the degree to your area of interest and career goals.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia mum.admissions@monash.edu or Monash University South Africa inquiries@monash.ac.za for more information on their offerings.

Course code: 2098

** Credit for prior learning: Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in business.

Credit exemptions up to 24 credit points may be granted for previous undergraduate studies.

** Students may be eligible for credit to a maximum of 50 per cent of the course requirements for previous graduate level studies.

Credit exemptions up to a maximum of 24 credit points may be granted for a honours degree level qualification in a relevant discipline.

*** Students may be eligible for credit to a maximum of 50 per cent of the course requirements for previous graduate level studies.

Credit or exemptions up to a maximum of 24 credit points may be granted for a honours degree level qualification in business.

---

*If you want to develop your management expertise, the Master of Management gives you the opportunity to advance your skills and career. This course focuses on advancing your management, decision-making and problem-solving skills so you can move into senior managerial positions.

The course covers changing and dynamic organisational environments, and is suitable for experienced professionals from a range of backgrounds, including government, community service and not-for-profit organisations as well as people with technical backgrounds in engineering and medicine, who are seeking career progression into management. The course positions you to step beyond where you are now. You will broaden your knowledge of key management constructs and transform how you lead and manage.

Course code: 0105"
This course is designed for experienced professionals in any business domain who seek cutting-edge theoretical knowledge and problem-solving skills in marketing. The course is taught by leading academics and industry experts with a focus on contemporary concepts and issues. Historically, this flagship degree attracts a large number of professionals working in the corporate sector, providing you with valuable networking and knowledge-sharing opportunities. The core units of this course have been strategically developed in consultation with our industry advisory board to promote leadership, as well as expert knowledge, in our graduates. Our timetable offers flexible study options to suit your busy work schedules and personal commitments. Some units are offered in intensive five-day blocks, or two-day split blocks, in addition to evening classes and online options. The range of elective units on offer allows you to customise the course to suit your professional interests and career goals, and includes the opportunity to undertake a corporate project under supervision.

Course code: 2276

The Master of Public Policy and Management explores the dynamics between governments and emerging issues that affect all levels of government. Our innovative curriculum provides you with a deeper understanding of management challenges in government, and equip you to respond to public policy issues. It will also provide you with the skills to drive improved performance across the spectrum of public sector activities. The course allows you to align your learning to your career aspirations and develop expertise in leadership, strategic management, public service operations and governance. The course is suited to experienced professionals who are working or aspire to work, in senior roles within the public sector, or who require an understanding of the public sector.

Course code: 1065

In this advanced dual degree you will develop your knowledge and expertise in accounting and develop the skills to address the wide range of legal issues that arise in contemporary businesses. You have the opportunity to focus on specific fields of accounting practice alongside study of the legal environment and its impact on business practice in corporate governance, financial regulation, compliance and taxation. The course is designed for those who need specialist legal knowledge in their roles, such as those in regulatory, compliance or risk-management accounting and who want to combine this knowledge with an advanced accounting qualification.

Course code: 3843

The principal component of the PhD is a major thesis of up to 80,000 words, embodying the results of a research project. Coursework and training will be a component of the PhD, in all of the disciplines across the business school.

Our PhD program enables you to complete independent research under the supervision of expert academics. Candidates are supported by a minimum of two supervisors throughout their candidature. Together with supervisors, each candidate is responsible for developing the research program to be followed. The Master of Philosophy also includes a coursework component, according to the academic discipline, for those students interested in transferring to the Doctor of Philosophy.

Course code: 3194

In this advanced dual degree you will develop your knowledge and expertise in accounting and develop the skills to address the wide range of legal issues that arise in contemporary businesses. You have the opportunity to focus on specific fields of accounting practice alongside study of the legal environment and its impact on business practice in corporate governance, financial regulation, compliance and taxation. The course is designed for those who need specialist legal knowledge in their roles, such as those in regulatory, compliance or risk-management accounting and who want to combine this knowledge with an advanced accounting qualification.

Education

“I have a degree in Engineering and many years of experience as a telecommunications engineer with a reputable multinational company. I progressed in various roles in the organisation, but had always been passionate about learning, teaching and training. I recognised that being a teacher is both a privilege and a responsibility not just to educate, but to impart, inspire and influence the next generation leaders to excel and succeed. I view this second career opportunity as a form of my calling to contribute back to society, and I hope to leave a lasting impact as my legacy.”

Michael Khor
Master of Teaching in Secondary Education

“I enjoyed working in industry but I did not see myself doing it in the long term. I did some soul searching about what I did want to do and decided that it was secondary teaching.”

Melanie Denney

Pictured left: Dr Melanie Denney completed her undergraduate and PhD courses in chemistry and then undertook postdoctoral studies in the USA before returning to Australia to work as a scientist with the CSIRO and the fine chemicals industry (Boron Molecular).

Dr Denney began her career as a research scientist but soon discovered it was teaching science that was her true passion. Dr Denney has always been interested in encouraging women in science. She completed a postgraduate teaching qualification at Monash University and is now teaching year 12 students at the John Monash Science School.

**DURATION**  
2 Years or 1.5 Years accelerated**

The Master of Teaching is designed for applicants with an undergraduate degree in any discipline who want a rewarding career as a global educator and teacher. Our innovative curriculum combines theory and professional experience, providing you with the knowledge, skills and professional values to become an effective educator. You can choose to specialise in early years, primary or secondary education — or a combination of these.

Students will build a high level of expertise in one of five specialisations:

- Early Years Education
- Primary and Secondary Education
- Early Years and Primary Education
- Primary Education
- Secondary Education

Through engagement with contemporary ideas and practices, you will develop the professional knowledge and skills needed to foster the learning of students of various ages and diverse needs. As a result, you will become an effective educator, able to design learning experiences that ensure your future students have the right balance of challenge and support to progress in areas such as the arts and music, English, mathematics, physical education, health and wellbeing, science and humanities.

You will engage with current education priorities and policies, and learn how to apply these in practice to develop a set of professional values and commitments that will position you as a research-informed future education leader.

You will gain professional experience by completing a minimum of 60 days of teaching practice throughout the course in urban, rural, remote or international settings and schools. This includes the opportunity to gain teaching experience in locations such as China, Cook Islands, Hong Kong, India, Israel, Italy, Malaysia, South Africa and United Arab Emirates (UAE).

An education degree provides an excellent basis for diverse careers in the classroom, in government or in private enterprise. When you choose the Master of Teaching at Monash University, you will graduate ready to transform the lives of others through learning.

Professional recognition: The specialisations that include Primary Education or Secondary Education are accredited with the Victorian Institute of Teaching (VIT). Students planning to register with VIT and qualify for employment as a teacher in Australian schools. Students planning to register as teachers interstate or overseas should check registration requirements with local authorities in case additional requirements apply.

The specialisations that include Early Years Education are accredited with the Australian Children’s Education and Care Quality Authority (ACECQA). Graduates who intend to teach in a preschool or kindergarten program are required to be registered with the Victorian Institute of Teaching (VIT) pending final accreditation.

**FEES p.a.**  
CISP: See page 85*  
Full fee: $20,200

**ENTRY REQUIREMENTS**  
Page 92

**DURATION**  
6 Months

This course is designed to orient students without a first qualification in education to the field of education. In addition, this course is also suited for students who do not meet the entry requirements for the Master of Education. It provides you with an understanding of concepts and contemporary issues in education and of educational contexts and systems, locally and globally. You will develop knowledge and understanding of major theoretical and professional debates in specialist areas within the field of education and locate these within contemporary research.

By studying the Graduate Certificate of Education Studies you will:

- acquire knowledge of foundational concepts and traditions in education
- develop understanding of recent issues and debates in policy and practice
- apply critical perspectives in your evaluation of substantive and contemporary issues and ideas
- demonstrate analytical skills in evaluating, synthesising and communicating academic concepts
- build confidence in academic literacy and demonstrated engagement at an advanced academic level.

Completion of the course positions you to pursue studies in the Master of Education course.

**DURATION**  
1, 1.5, or 2 Years

This course addresses learning in schools, workplaces and community. It connects research and practice in order to make you a stronger thinker, an engaged practitioner and an advanced specialist.

The course addresses the professional learning needs of educators, educational administrators, managers, policy makers and others interested or involved in learning and education or educational work in the wider community, whether based locally or internationally.

You will broaden your knowledge of key learning constructs, deepen your professional learning in specialist areas and advance your capacity as a professional inquirer. A research pathway is available based on academic merit and on approval.

The course offers a general stream in which you select units of your choice or a choice of specialisations where you build your research knowledge and extend your expertise in a particular area of focus.

Specialisations:

- Adult Learning
- Digital Learning
- Early Childhood Education
- Educational Leadership and Policy
- Expert Teaching Practice
- General Education Studies
- Inclusive and Special Education.

Please note: this course does not provide a recognised initial teaching qualification. Students seeking an initial teaching qualification should refer to the Master of Teaching course.

**Master of Leadership**

**LOCATION**  
Clayton, Singapore*

**INTAKE**  
February and July

**FEES p.a.**  
CISP: See page 85*  
Full fee: $23,700

**ENTRY REQUIREMENTS**  
Page 92

**DURATION**  
1 Year

This course is designed for aspiring leaders across a broad range of learning contexts, from schools, to organisations and other workplaces, and to communities more broadly. You will develop the professional knowledge and skills to lead in learning communities, whatever their form. You will enhance your own capacity to learn and adapt to changing circumstances and to innovate your way into the future.

In turn, you will lead and inspire others to do the same and as a result contribute to building individuals and communities that are productive and resilient. If you prefer to graduate with a generic, broadly applicable leadership qualification – the Master of Leadership – choose general leadership studies and select units to suit your requirements, including those in other specialisations. If you prefer to graduate with a qualification that highlights your particular leadership expertise, select one of the following specialisations.

Specialisations:

- Curriculum and Pedagogy
- General Leadership Studies
- Organisational Learning
- Principal Preparation

The Master of TESOL is suitable for a wide range of professionals, educators or prospective educators working in English language teaching in international or local contexts, and leads to a postgraduate qualification in TESOL (Teaching English to Speakers of Other Languages). The course helps you to develop an expert understanding of the core principles of language teaching and learning. This is achieved through a focus on students' own contexts for teaching and through an optional, unique field observation program that creates opportunities for you to observe Australian English and foreign language teaching practices and school structures. As part of this program you will also micro-teach in a supportive environment with focused feedback to develop reflective skills and formative self-assessment which are the keys to quality teaching. You will engage with contemporary theory and practice for additional language acquisition and advanced understanding of, and skills associated with:

- the role of social and cultural contexts in language learning
- a range of communicative approaches to teaching, learning and assessment and planning for teaching in various TESOL contexts
- the evaluation, analysis and design of assessment tasks
- the development and maintenance of bilingualism and biliteracy in formal learning environments
- English language education in local and global contexts
- transcultural and intercultural learning, communication and mobility, including in online learning settings the use of digital technologies to support learning.

Graduates of the Master of TESOL are prepared as language teachers of English language education in local and global contexts and can operate with confidence in a changing and increasingly 'internationalised' world.

Please note: this course does not provide a recognised initial teaching qualification. Students seeking an initial teaching qualification should refer to the Master of Teaching course.

Course code: D6005

### FLEXIBLE DELIVERY

A flexible course delivery also allows you to continue working whilst completing the course. You can choose to engage via a fully online offering or to combine this with attendance at face-to-face workshops if you are able and interested.

## Master of Counselling

</tbody>
</table>

This course provides a professional qualification and offers a combination of theory and professional experience, providing you with the knowledge and skills to begin a rewarding career as a counsellor. The course is suited to people from a variety of professions, such as human resources, health, social welfare and education. It is taught by leading academics with extensive experience working as counsellors and psychologists.

The course draws on contemporary theories and approaches to counselling and psychotherapy and will develop your appreciation of the mental health issues that arise across the lifespan. You will examine the various forms of professional counselling, including online and distance counselling, child and adolescent counselling, and individual, couples and group counselling. You will also be introduced to the ethical and professional issues faced by counsellors. Creative approaches to counselling will be examined, including play therapy and art therapy. In addition, you will gain in-depth knowledge across a range of contemporary cognitive-behavioural therapies.

You will complete 300 hours of professional experience, which includes contact and non-contact hours. Non-contact hours include any counselling-related duties associated with the placement centre that do not involve counselling clients. Contact hours include client counselling or discussions with case managers, teachers, social workers, and/or family members.

Master of Counselling graduates work in a variety of fields, including careers counselling, education, child and family services, child-protection services, health policy, family counselling, health-services management and rehabilitation counselling.

### Professional recognition

This course is accredited by the Australian Psychology Accreditation Council (APAC) as a generalist fifth year of study and prepares selected psychology graduates in advanced psychotherapeutic skills required for general registration as a psychologist. On completion of the course, students will have acquired the necessary skills to prepare for a final year of supervised practice in the field for general registration under the ‘5+1 internship model’ for registration. The course develops graduates as independent specialist professionals with a professional commitment to applying the theoretical, research, assessment and therapeutic skills involved in psychology. It develops the ability to think critically and analytically about the processes involved in psychology. Guided by sound ethical principles, students’ competencies develop through their collaborative participation in coursework, workshops and clinical placement activities under the supervision of experienced practitioners.

Course code: D6008

### FLEXIBLE DELIVERY

A flexible course delivery also allows you to continue working whilst completing the course. You can choose to engage via a fully online offering or to combine this with attendance at face-to-face workshops if you are able and interested.

The Graduate Diploma of Professional Psychology is an Australian Psychology Accreditation Council (APAC) accredited fourth-year qualification in psychology.

The course is suited for people who have completed a bachelor's degree with a major in psychology from any course accredited by the Australian Psychology Accreditation Council (APAC), and who want to pursue advanced postgraduate study in psychology at master's or doctoral level, or alternatively to undertake supervised psychological practice. The course provides advanced study of the discipline of psychology, research training, and an introduction to psychological practice. By engaging with contemporary research and literature in developmental psychology, you will:

- understand human development across the lifespan including biological, perceptual, cognitive, personality, social and emotional changes from infancy to adulthood
- examine legislation relating to the practice of psychology and how to comply with such legislation
- appreciate the role of ethics in maintaining the integrity of the profession
- learn about individual differences and how these may be assessed
- using different assessment tools
- develop an appreciation of the role of scientific research in the field of psychology and undertake an independent research project.

You will have a choice of one elective. At present, topics include developmental psychology and wellbeing or behaviour change interventions for practitioners.

Eligible graduates may proceed to further training and study required for professional registration in psychology.

Course code: D5002

### PROFESSIONAL RECOGNITION

Our psychology courses are accredited by the Australian Psychology Accreditation Council (APAC). Professional accreditation ensures that our students graduate from degrees that are recognised by employers and adhere to state and national accreditation standards.
Coursework continued

### Master of Educational and Developmental Psychology

**Location:** Clayton

**Duration:** 2 Years

**Fees p.a.:** $26,300

**Entry Requirements:** Page 92

Educational and developmental psychologists focus on how people develop and learn throughout their lifetime. They work with individuals, families, groups and organisations in a range of settings and have varying roles such as school psychologist, guidance officer, and child and adolescent counsellor. They conduct psychological and educational assessments and instructional planning for exceptional children, adolescents and adults.

The Master of Educational and Developmental Psychology is an Australian Psychology Accreditation Council (APAC) accredited fifth and sixth-year sequence in psychology and prepares graduates to practise as educational and developmental psychologists in settings including schools, health and welfare services, care facilities, and within business environments.

You will develop advanced understanding of, and the skills associated with:
- human developmental stages and processes throughout the lifespan
- psycho-educational assessment and treatment approaches for antisocial or atypical development
- advanced therapeutic counselling process and the cycle of effective intervention and change
- contemporary models of exceptionality and inclusion
- evidence-based intervention and treatment programs for psychological problems and psychopathology across the lifespan
- contemporary research and theories of abilities, personality and psychopathology
- ethical, cultural and professional issues
- administering and reporting a range of essential psycho-educational assessment instruments for assessing abilities, personality and adjustment of children through to adults.

In addition you will apply theory to practice with 1000 hours of supervised professional experience in a range of settings. In undertaking a research thesis, you will develop an evidence-based approach to psychology, carrying out reviews and scientific investigations relevant to the theory and practice of educational and developmental psychology.

As a graduate, you will be qualified to register as a psychologist with the Psychology Board of Australia (PSBA). You will also meet most requirements for membership of the College of Educational and Developmental Psychologists of the Australian Psychological Society.

Course code: D6007

### Master of Education – Thesis Only

**Location:** Berwick, Clayton, Peninsula

**Duration:** 1.5 Years

**Fees p.a.:** RTS

**Entry Requirements:** Page 93

This course is designed for students with a first qualification in the discipline of education in the broadest sense, and who wish to generate new knowledge and gain deep understanding through educational research. The course provides you with the opportunity to undertake a substantial research project that applies directly or indirectly to your professional practice or personal interest. You undertake a substantial thesis of 30,000 – 40,000 words.

Course code: 0077

### Master of Education – Coursework/Thesis

**Location:** Berwick, Clayton, Peninsula

**Duration:** 3 – 4 Years equivalent full-time

**Fees p.a.:** RTS

**Entry Requirements:** Page 93

This course combines the coursework and practicum requirements of the APAC accredited Master of Educational and Developmental Psychology with the thesis requirements of the PhD. Students begin by undertaking coursework units of the master’s degree, while also preparing their detailed research proposal for the PhD. Continuation to the PhD program is granted if performance meets the required academic standard. Graduates will develop as independent specialist professionals with a commitment to lifelong learning of the theoretical, research, assessment, and therapeutic skills involved in educational and developmental psychology. In addition, they will complete an applied research thesis which will be an original and substantial contribution to educational and developmental psychology. A wide variety of thesis topics related to educational and developmental psychology across the lifespan are possible, subject to available supervision.

Only students currently enrolled in the Master of Educational and Developmental Psychology at Monash University can apply for the combined PhD program.

Course code: 0738

### Doctor of Philosophy

**Location:** Clayton

**Duration:** Throughout the year

**Fees p.a.:** RTS

**Entry Requirements:** Page 92

Monash University supports, promotes and conducts high-quality research that creates significant impact in Australia and overseas. The PhD is a supervised program that allows students to conceptualise and implement a major research project on a topic of personal interest. Your research will aim to improve professional practice and extend your expertise and skills relating to important or significant educational issues. You will undertake a program of supervised research and submit a thesis. The thesis should make a significant contribution to knowledge and theory, and demonstrate your ability to carry out independent research. Your PhD research project should be designed so that it is achievable within three years equivalent full-time study, with candidates expected to complete their degree within four-years equivalent full-time study. Your degree will consist of the research thesis (or alternative approved outputs) and will require the completion of research training activities or coursework.

Course code: 0079

---

“Monash has enriched my learning experience by providing an international professional experience opportunity in Prato, Italy.”

Ni Du,
Master of Teaching in Secondary Education
Solving the technological problems of the future is going to require talented engineering professionals.

At Monash we are excited to launch our new Master of Advanced Engineering. Designed to develop your skills as an engineering specialist and a leader in your particular field. You will develop the relevant corporate and community leadership skills and attributes to help manage engineering solutions in a rapidly changing world. Plus you can combine your engineering interests with a Master of Business to give you the edge in a complex job market.

- Benefit from our industry partnerships and research collaborations with some of the best and brightest.
- Be a part of a growing engineering and technology precinct with facilities like the New Horizons building which is home to the Cave2™ – a next-generation immersive hybrid 2D and 3D virtual reality environment.

Kedar Deshmukh
PhD

Kedar received a Monash New Horizons Research Scholarship. He is currently undertaking PhD studies with the Department of Materials Engineering, participating in research that focuses on high-efficiency all-polymer solar cells.

His own research interests include device and materials physics of organic photovoltaics and organic field effect transistors.

monash.edu/engineering
Master of Advanced Engineering

**Location**: Clayton, Malaysia  
**Entrance Requirement**:  
**Duration**: 1 or 2 Years (duration may vary depending on prior qualifications)

The Master of Advanced Engineering offers flexibility to complete your master’s degree in just one year, or you can choose a two-year option. This course is designed to extend your knowledge in your chosen specialisation in: Chemical, Civil (Infrastructure Systems, Transport or Water), Energy and Sustainability, Electrical, Materials or Mechanical Engineering, and advance your leadership and complex solving skills in a cross-cultural environment.

The two-year program retains all the features of the one-year program but has an additional year giving students the opportunity to further deepen their skills and knowledge in their engineering field.

**Specialisations available are**:
- Chemical Engineering
- Civil Engineering (Infrastructure Systems)
- Civil Engineering (Water)
- Civil Engineering (Transport)
- Electrical Engineering
- Energy and Sustainability
- Materials Engineering
- Mechanical Engineering

**Coursework**

**Master of Infrastructure Engineering and Management**

**Location**: Off-campus only  
**Intake**: February and July

**Fees p.a.**: $32,200  
**Entry Requirements**: Page 93

**Duration**: 1.5 Years

Planning, design, construction and maintenance of infrastructure are crucial to the economic viability of Australia. Skilled professionals are required to maintain ageing infrastructure, integrate new infrastructure into existing systems, and expand infrastructure. This must be done in a way that is socially, environmentally and financially sustainable.

The Master of Infrastructure Engineering and Management will equip students to meet these important challenges. The program was developed in response to the growing need for engineers with advanced knowledge of the characteristics and significance of infrastructure, including its technological, economic and social impact. This off-campus course is aimed at managers, engineers and technical staff who undertake asset management in local and state governments. It is also for those who are involved in the management of infrastructure such as roads, railways, buildings, bridges, tunnels, dams and pipelines.

Course code: 3626

**Master of Bioresource Engineering**

**Location**: Clayton

**Intake**: February and July

**Fees p.a.**: $32,200  
**Entry Requirements**: Page 93

**Duration**: 1.5 Years

This course provides science or engineering graduates who wish to pursue a career in the bioresource industry with an enhanced understanding of the scientific and engineering aspects of the conversion of bioresources into fuel, materials and specialty chemicals.

Course code: 4812

**Master of Transport**

**Location**: Off-campus only

**Intake**: February and July

**Fees p.a.**: $32,200  
**Entry Requirements**: Page 93

**Duration**: 1.5 Years

All over the world, issues such as traffic congestion, safety, environmental impacts and the efficiency of transport operations are everyday concerns. With transport systems under pressure to deliver better economic, social and environmental outcomes for the community there is a growing demand for professionals who are prepared to address these challenges.

After completing the Master of Transport, you are eligible to continue to the Master of Traffic which requires completion of a further 24 points, including any core units in the Master of Transport not already undertaken in the Master of Traffic.

Course code: 3722

---

**Research**

**Master of Engineering Science (Research)**

**Location**: Clayton, Malaysia  
**Intake**: Throughout the year

**Fees p.a.**  
**Entry Requirements**: Page 93

**Duration**: 2 Years

Monash Engineering has a national and international reputation in the field of transport education and research built over 35 years. The Master of Traffic is offered by the Monash Institute of Transport Studies, a Key Centre of Teaching and Research in Transport Management.

Students explore traffic operation issues such as traffic congestion, traffic management, road safety and intelligent transport systems. The program has been designed for those who work in traffic engineering, road safety, and civil and environmental engineering. After completing the Master of Traffic, you are eligible to continue to the Master of Transport which requires completion of a further 24 points, including any core units in the Master of Transport not already undertaken in the Master of Traffic.

Course code: 3271

---

**Doctor of Philosophy**

**Location**: Clayton, Malaysia  
**Intake**: Throughout the year

**Fees p.a.**  
**Entry Requirements**: Page 93

**Duration**: 3–4 Years

The PhD program may be undertaken in the principal areas of research offered by the Faculty of Engineering, including chemical engineering, civil engineering, electrical and computer systems engineering, materials engineering, mechanical engineering and aerospace engineering. All specialised fields of research at Monash Engineering are at world standard or above and overall research in the faculty is rated well above world standard in the most recent Excellence in Research for Australia assessment.

PhD candidates have access to world-class laboratories, workshops and facilities furnished with highly specialised equipment and software. Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four-years of equivalent full-time study.

Your degree will consist of the research thesis and will require the completion of research training activities and coursework. The thesis should be approximately 80,000 words.

Course code: 3291
Information Technology

Monash is the only university in the prestigious Group of Eight with a faculty exclusively dedicated to Information Technology. This allows us to offer both breadth and depth, giving you an excellent choice of courses and units.

Monash sits among the world’s most prestigious universities and is ranked in the top 100 in the world for Engineering, Technology and Computer Science by the 2014 Academic Ranking of World Universities. Join us and apply your creative energies in a field that is revolutionising society.

Kartika Angkawijaya
Senior Product Information Specialist, 3M Innovation Master of Information Technology.

After completing an undergraduate degree in her home country of Indonesia, Kartika decided to research different universities in Australia and chose Monash because of its well-known international reputation.

“Having a Monash degree helped me to get more future employer recognition, especially when I decided to move to Singapore to pursue my professional career.”

She now works in the Consumer Business Group eHub team, a digital marketing area which supports the consumer brands all across the Asia Pacific.

Doctor of Philosophy

LOCATION Caulfield, Clayton, Malaysia
INTAKE Throughout the year
DURATION 2 Years
FEES p.a. Page 94
ENTRY REQUIREMENTS Page 94

Information Technology research at Monash has a multi-disciplinary, multi-campus and multi-national approach, providing research students with a unique capacity to reach out further and deeper than at any other institution in Australia. The Doctor of Philosophy (PhD) is a supervised program designed to allow a student to conceptualise and implement a major research project on a topic of personal interest. The degree is awarded for a thesis which, in the opinion of the examiners, makes a significant contribution to knowledge in the discipline concerned and demonstrates the candidate's capacity to carry out independent research. Doctoral candidates are supported throughout their degree by a minimum of two supervisors. The length of the thesis may vary across disciplines, but should not normally exceed 80,000 words. Candidates are required to complete a compulsory coursework program. Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four-years of equivalent full-time study. Your degree will consist of the research thesis and will require the completion of coursework.

Course code: 0190
The Faculty of Law is recognised as one of the best-performing law schools in the world. A law degree from Monash gives you a world standard education and an exceptional qualification.

Why Monash Law?
Make a difference to social justice globally, nationally and at home.
- Give your career a professional edge by undertaking one of our contemporary, specialised courses.
- Remain relevant in a changing global environment
- Learn from leading academics, experienced legal practitioners and international experts.
- Undertake your studies at the Monash University Law Chambers located in the heart of Melbourne’s legal precinct in the CBD.

“Before commencing the Master of Laws at Monash University, I completed a Bachelor of Arts/Law (Hons) and then completed postgraduate studies in Education. I have been teaching VCE students Legal Studies and Politics, and have now returned to complete my Master of Laws. I have completed all of my tertiary studies at Monash University and feel comfortable and supported. The teaching staff within Monash Law Faculty are very approachable, and I have been fortunate to have been taught by academics who are recognised internationally as being experts in their field. Completing the Master of Laws at Monash University is convenient, due to its inner city location and the classes that run outside working hours. The wide variety of options at a postgraduate level allow you to tailor your studies to areas of law in which you are interested. I have been encouraged to explore areas of law of specific interest to me when completing assessment tasks, which ensures that the course is engaging and somewhat personalised. Monash Law Faculty has a strong reputation, and I have found that employers and the legal community highly regard a degree from Monash Law Faculty.”

monash.edu/law

Rebecca Gunn
Master of Laws
Coursework

Graduate Diploma in Law

[LOCATION] Melbourne CBD  
[FEES p.a.] $29,800  
[DURATION] 1 Year

The Graduate Diploma in Law is open to both law graduates and selected non-law graduates. Students have the opportunity to choose from nine different areas of specialisation – as further outlined in this brochure. This course is designed to enable students to build on their existing experience to acquire advanced legal skills and expertise, adding to their value in the workplace. It also provides an entry point into masters courses for individuals who currently lack the necessary qualifications for direct entry. While this course normally comprises eight coursework units, applicants may be eligible to obtain credit for up to four units for recognised work experience or prior learning.

Course code: L5001

Master of Commercial Law

[LOCATION] Melbourne CBD  
[FEES p.a.] $29,800  
[DURATION] 1 Year

The Commercial Law specialisation focuses on areas that include corporate law, competition law, banking and finance law, and tax law and allows students to choose from an extensive range of domestic and international commercial law units. Our offering of units is designed to cater to a variety of career aspirations and interests. The Master of Commercial Law specialisation provides a formal course of training for lawyers working in commercial law and on-lawyers working in law-related fields (e.g. accountants, company administrators, management personnel, etc.). It provides students with the opportunity to obtain a specialist qualification in commercial law and provides a springboard from which to launch or further your career in this complex and evolving professional area.

Course code: L6001

Master of Human Rights Law

[LOCATION] Melbourne CBD  
[FEES p.a.] $29,800  
[DURATION] 1 Year

The Human Rights specialisation allows students to choose from an extensive range of units covering topics across the domestic and international areas. Covering a wide range of traditional and emerging topics, from indigenous and children’s rights to issues relating to terrorism, migration and enforcements on privacy. This specialisation enables students to focus on topical human rights issues confronting governments, international bodies, individuals and corporations and allows students to critically engage in and debate these issues. It draws on the strengths of the Castan Centre for Human Rights Law, which has been part of the School of Law since 1989. The Masters of Human Rights Law is particularly relevant for those who wish to pursue a career in human rights law and related work. This specialised degree provides in-depth theoretical and practical knowledge of the international human rights legal framework, the organisations that promote and protect it and the mechanisms and processes by which it is enforced. Students will also develop high-level skills in interpreting and analysing primary and secondary human rights materials, including treaties, treaty body documentation, domestic jurisprudence and scholarly commentary.

Course code: L6002

Master of Intellectual Property Law

[LOCATION] Melbourne CBD  
[FEES p.a.] $29,800  
[DURATION] 1 Year

The Intellectual Property specialisation allows students to choose from a carefully selected offering of units covering key areas of intellectual property law and topics relevant to emerging technologies and to learn to apply them in practical settings. These units cater to a variety of career aspirations and interests and provide opportunities to develop expertise and enhance existing skills and knowledge in this complex and evolving professional area. The Masters of Intellectual Property Law provides law and non-law students with a rigorous grounding in the fundamental principles of intellectual property law and also addresses advanced issues, including local and international developments of laws relating to the protection of intellectual property rights. It provides students with specialist qualification from which to commence or further a career in this fast changing area of professional practice.

Course code: L6003

Master of Laws

[LOCATION] Melbourne CBD  
[FEES p.a.] $29,800  
[DURATION] 1 Year

The program has been developed to offer maximum flexibility and choice for law graduates, with a broad range of subjects that enables students to specialise in contemporary legal issues from both international and local perspectives and to tailor the masters degree to their interests and professional needs. Students have the opportunity to choose units from nine different areas of specialisation – as further outlined in this brochure. The Masters of Laws (LLM) is designed exclusively for law graduates and is ideal for those who want to develop in-depth knowledge of a particular legal area or for more experienced practitioners wanting to advance their professional expertise in a current area of practice. This course also provides opportunities for independent legal research.

Course code: L6004

Master of Regulatory Studies

[LOCATION] Melbourne CBD  
[FEES p.a.] $29,800  
[DURATION] 1 Year

The Master of Regulatory Studies was specifically designed to address the nature, extent and implications of the regulatory environment in a broad, cross-disciplinary approach. The study of regulation is a relatively new discipline which links and transcends the boundaries between economics, law, politics, criminology, sociology, psychology, organisational theory and public administration. The Master of Regulatory Studies is unique degree which provides practitioners and scholars with a consistent set of ideas, theories and skills to manage regulatory challenges and to apply to their activities either as regulators or in roles which involve regular interactions with regulators.

Course code: L6005

Master of Workplace and Employment Law

[LOCATION] Melbourne CBD  
[FEES p.a.] $29,800  
[DURATION] 1 Year

Effective, equitable and safe workplace practices are a growing concern in the global workforce. This area of specialisation includes a diverse range of units, covering topics such as collective bargaining agreements, individual contracts, occupational health and safety, electronic workplace law, international human rights and economic torts. The Master of Workplace and Employment Law is designed to provide graduates with a thorough grounding in labour law and is relevant for those working or who aim to work in the area of workplace and employment law or a related area such as human resources management.

Course code: L6007

Other areas of specialisation

Areas of specialisation additional to those provided in the specialised masters courses outlined are as follows:

- **Government Law and Regulatory Practice**
  - Embraces a suite of units relevant to middle and senior management in local government and the public sector more generally. These include an understanding of government and administration, local government law, regulation and compliance, privacy and FOI, planning and environmental law, and domestic human rights obligations.

- **Dispute resolution**
  - Is integral to the work of practising lawyers and non-lawyers working in the growing field of alternative dispute resolution. Our program includes units on negotiation, mediation, arbitration, collaborative practice and advocacy.

- **Media and communications law**
  - Is an area of practice that is subject to constant change due to the impact of technological developments. We provide a diverse range of units covering the fields of intellectual property, defamation, privacy and FOI, freedom of expression, law of the Internet and entertainment law.
Doctor of Juridical Science

The Doctor of Juridical Science (SJD) is a professional doctorate program that enables students to complete a research thesis together with a selection of coursework units in a specific area of interest. The program is suited to those who wish to pursue an academic career or a major academic research project such as an area of law reform, or develop policy or theoretical perspectives in an area where they seek to acquire recognised expertise. The coursework units allow students to develop some expertise in the area in which they intend to pursue their research before commencing work on their thesis of no more than 50,000 words. The coursework component comprises for units taken from the masters program (an overall distinction average of 75%+ must be obtained across all units) as well as the SJD seminar unit which incorporates a series of seminars on advanced legal research, a 3,000 word essay on a topic relevant to the proposed research, and the presentation of a thesis proposed to a review panel.

Course code: 3380

Doctor of Philosophy

The Doctor of Philosophy (PhD) in the Faculty of Law may be undertaken in any of the principal areas of research offered by the Faculty. It is particularly relevant to those contemplating an academic career in law. From 2015, students for a PhD in Law are required to complete a Graduate Research Professional Development component and a thesis of no more than 80,000 words. The Graduate Research Professional Development component can be chosen from a range of research training activities throughout the enrolment from the ‘Graduate Research Education and Development’ and ‘Advanced Discipline Development’ modules. The thesis must make an original contribution to knowledge and must demonstrate students’ ability to carry out independent research and analyse and synthesise legal concepts.

Course code: 0069

Master of Philosophy

The Master of Philosophy (MPhil) is a two-year full-time equivalent program. The degree is normally a 100% research program, with the thesis having a maximum word length of 50,000 words. For students commencing their MPhil on 1 January 2015 onwards, the word count for the MPhil should be 35,000.

The MPhil thesis may be undertaken in any of the principle areas of research within the faculty. It is particularly suited to students seeking to undertake an inter-disciplinary research project. It is expected that the thesis will meet a standard comparable to legal writings found in scholarly journals, and demonstrate the student’s ability to carry out independent research and analyse and synthesise legal concepts.

Course code: 3379
Monash has long been considered in the top tier of Australian universities when it comes to medicine, nursing and health sciences. We are consistently ranked in the top 50 medical schools in world rankings and are the only Australian member of the prestigious M8 Alliance of academic health centres and medical universities.

- Transfer your knowledge and expertise into breakthrough clinical outcomes.
- Join highly recognised researchers who are already making a difference in the fight against illness, injury and disease.
- Pursue your professional ambitions from day one.

Rebecca Watson
Master of Occupational Therapy

"The Master of Occupational Therapy at Monash University sparked my interest as it is possible to complete the qualification in two years. I have always had a keen interest in helping people. Occupational therapy appealed to me as it is a flexible and diverse career, with opportunities to work with individuals and groups in a variety of settings to help them achieve their personal goals.

The course structure includes a diverse range of learning formats including theory, scenario based learning, practical workshops and placement. The workshops gave me the opportunity to learn lots of practical skills such as making a hand orthosis, learn about manual handling, equipment and home modifications.

The small class sizes provided an intimate and encouraging learning environment that has enabled me to participate fully and develop a close network of friends that are supportive both during and outside of class. The teaching staff are also very supportive and understanding of our needs which has contributed to my enjoyment and success in the course"

Our graduate entry medical program gives you the opportunity to commence your medical studies after completing another degree. Students complete Year A of the 4-year program, the pre-clinical year, in Churchill. Years B, C and D are all undertaken in a range of clinical settings in Metropolitan Melbourne, South Eastern Victoria or Northern Victoria. In 2016 this degree is open to applicants who have completed or are in the final year of a degree in Biomedical Science, Dentistry, Pharmacy, Physiotherapy or Veterinary Science from select tertiary institutions including Monash. You can also apply if you are studying Science at Monash University. While the degrees listed will meet our hurdle requirements for entry, we will be assessing other degrees on a case-by-case basis as long as they have a strong biomedical science focus. A full list of institutions and relevant degrees can be found online. Further changes will be made to the admissions requirements for this course for 2017 entry. Please check the website for further details.

Graduate Certificate in Clinical Simulation

This course is designed to meet the unique requirements of teachers working in health professions education using simulation as an educational modality. The course enables participants to develop their teaching, curriculum design and program evaluation skills in inter-professional settings and addresses the medical, psychosocial, technical and organisational elements unique to simulation education. Participants will also develop their working knowledge of educational theories as they apply to their simulation education roles. This course articulates to the Master of Health Professional Education (3860) for those wishing to further develop their educational practices.

Course code: 3973

* This is the average course fee for this 24 credit point course.

Graduate Diploma in Psychology

This course offers graduates a major in psychology accredited by the Australian Psychology Accreditation Council (APAC), permitting them to undertake the further training needed to obtain professional qualifications. This course is offered in a purely online mode, however, will include at least 1 hour of participation in live learning activities per week. Applicants should have completed an undergraduate degree in any discipline. The course structure includes an APAC-accredited sequence in psychology of nine core units and one elective. Studies include developmental and biological psychology, research design and analysis, cognitive and social psychology, abnormal psychology, perception and personality, psychological testing, theories of ability and ethics, research methods and theory. Electives offered may include units covering counselling, health psychology, addiction disorders, therapeutic and cognitive; psychology and the law; and music psychology.

Course code: 4525

The Master of Addictive Behaviours is offered in partnership with Turning Point, an internationally renowned clinical treatment and research centre. The course provides students with a comprehensive overview of addiction science, policy and practice. It is a multidisciplinary, modular post-graduate degree that is delivered online but which retains a strongly interactive and dynamic focus.

Covering key contemporary issues such as problem drinking and gambling, and misuse of prescribed and illicit drugs, the course is delivered by a team of national and international experts from Monash University, Turning Point and other leading universities.

The course is suitable for graduates in psychology, criminology, nursing, medicine and social work, and for professionals engaged in criminal justice, mental health, community health and public policy. It enables students to enhance their career development, improve their academic skills and gain a rewarding and satisfying educational experience.

The Master of Advanced Health Care Practice provides a pathway for professionals such as medical practitioners, nurses, midwives, occupational therapists, physiotherapists, radiographers, radiation therapists, and primary health care practitioners and managers to gain a master’s level qualification that enhances your undergraduate degree—and provides the widest range of options for the future.

This course is interprofessional by nature; all students complete a common module 'Essentials of advanced health care practice and research', which reflects the collaboration required in practice to deliver health care of the highest quality.

Upon successful completion of your specialism, you will graduate with one of:
- Master of Advanced Primary Health Care Practice
- Master of Advanced Occupational Therapy Practice
- Master of Advanced Radiography Practice (CT Radiography)
- Master of Advanced Radiation Therapy Practice
- Master of Advanced Rural Health Practice
- Master of Advanced Clinical Midwifery Practice
- Master of Advanced Critical Care Practice

This 12-month, intensive course provides students with the essential postgraduate knowledge and practical skills necessary to contribute competently to human infertility clinical services. Theoretical and practical skills are presented in the broad context of the regulations and the ethical considerations that apply to human IVF, both nationally and internationally, along with the quality control procedures required to ensure maximum success for IVF patients. The guidelines, protocols and regulations that steer and control human infertility services are also presented. In addition to attending lectures and self-directed study, students are required to undertake continual practical skills training and also students will undertake a minor research project. Students will not only be equipped with practical skills required for work in an IVF laboratory but also gain a greater understanding of research applications within the field of reproductive or developmental biology.

Research-related tasks contribute to the overall assessment for specific coursework units.

Master of Biostatistics

LOCATION  
Alfred Hospital

INTAKE  
February

FEES p.a.  
$24,000

ENTRY REQUIREMENTS  
Page 96

DURATION  
3 Years (part-time only)

This course provides a sound understanding of the theory and application of biostatistics relevant to professional practice. Students acquire skills and experience in complex statistical analyses, identifying and implementing appropriate statistical methodology, communicating biostatistical results and understanding biostatistical literature.

The course develops the technical skills for commencement in a professional career as a biostatistician. The course comprises 10 – 11 core units and 1 to 2 elective units.

The Biostatistics coursework programs of the School of Epidemiology and Preventive Medicine are part of a national consortium of universities known as the Biostatistics Collaboration of Australia. The units studied in the various degree programs are delivered in off-campus mode (distance education) by staff of Monash University and of other universities in the Collaboration. Details of how the Collaboration operates are provided at bca.edu.au/howthebioworksnutshell.html

If you need to exit the program early, you can graduate with a graduate certificate after one year or a graduate diploma after two years of successful study.

Master of Dietetics

LOCATION  
Alfred Hospital

INTAKE  
February

FEES p.a.  
$25,800

ENTRY REQUIREMENTS  
Page 96

DURATION  
2 Years (part-time only)

This postgraduate course aims to prepare graduates with the professional and personal qualities required for future dietetic practice in a variety of workplace settings. The course integrates academic teaching and learning with clinical, population health, food service, research and management experience, and is undertaken in both academic and professional practice placement settings (e.g., clinical, food service, community nutrition and public health nutrition).

Course code: M6002

Master of Clinical Research Methods

LOCATION  
Alfred Hospital

INTAKE  
February

FEES p.a.  
$23,400

ENTRY REQUIREMENTS  
Page 96

DURATION  
1.5 Years

Clinical epidemiology attempts to answer questions relevant to the daily practice of medicine and other health sciences and to improve patient care. This course assists health professionals to make rational evidence-based decisions in clinical practice and undertake small clinical research projects. It focuses on individuals or groups of patients in clinical settings. Above all, graduates should be able to critically evaluate their own efforts and the efforts of others towards the achievement of better health outcomes.

Students may exit from the course with the Graduate Diploma in Clinical Research Methods or the Graduate Certificate in Clinical Research Methods. Students who successfully complete the research stream and achieve an overall average of High Distinction may apply to progress to a PhD or other Higher Degree by Research.

Course code: 3311

Master of Emergency Health

LOCATION  
Alfred Hospital

INTAKE  
February

FEES p.a.  
$20,300

ENTRY REQUIREMENTS  
Page 96

DURATION  
2 Years

This course is designed for emergency health practitioners interested in improving their clinical knowledge and aspiring to leadership positions in their field of practice.

You will have the opportunity to examine emergency health care from clinical and systems perspectives using local and international contexts.

In the last year of the course you will study clinical research in emergency health and have the option of undertaking a clinical project or studying clinical improvement, education or leadership to develop the professional attributes and skills required to practice at an advanced level.

You will learn from experienced practitioners, researchers and educators who have been delivering Ambulance Victoria’s education programs for over 15 years, and who take their role as educators of the next generation of emergency health services leaders, managers and researchers seriously.

You’ll gain the skills to evaluate and apply effective clinical and management practices, while opening the door to a career as an emergency health provider, educator or researcher.

If you need to exit the program early, you can graduate with a graduate certificate after one year or a graduate diploma after two years of successful study.

Course code: 3878

This course is delivered in off-campus mode apart from the Clinical Midwifery Practice specialisation which is delivered at the Peninsula campus.
Master of Forensic Medicine

The Master of Forensic Medicine provides a pathway for medical and dental professionals to gain a masters level qualification that will enhance options for practice in the future. Clinical forensic medicine and forensic odontology act at the interface between medical/dental practice and the law. Both areas of practice are increasingly becoming specialised disciplines in their own right. The need for more formal training in clinical forensic medicine and forensic odontology has been recognised by justice organisations for some years.

This course is designed to further develop medical and dental practitioners knowledge and skills so that they are able to provide a high quality clinical forensic medical and dental service. Material covered will include ethical and legal issues arising in forensic practice, the skills required to interpret injury patterns, identify unknown human remains, knowledge of general forensic science methods, and communication with the justice system.

Students may be eligible to take an alternative exit from the program with a Graduate Diploma in Forensic Medicine, provided the requirements of the alternative exit have been met.

Course code: 3412

Master of Health Professional Education

This program is designed for health professional educators wishing to study contemporary evidence-based educational practices and to undertake high-quality educational coursework and/or research.

This course can be undertaken in one of two ways:

Option A is for students entering directly into the course who complete 72 points of coursework-only units or 36 points of coursework and a 36 point minor thesis.

Option B is for students who have completed the Graduate Certificate in Health Professional Education or the Graduate Certificate in Clinical Simulation or approval alternative. Students can choose to complete 48 points of coursework only units or 12 points of coursework and a 36 point minor thesis.

Students who successfully complete the thesis option and achieve an overall average of HD may apply to qualify for admission into Higher Degree by Research.

Course code: 3860

Master of Health Services Management

Health care management encompasses a broad field of practice that is continuing to grow in tandem with the growth of the health care industry and the challenges it faces in terms of financial sustainability, increasing complexity, and greater consumer expectations, including accountability for safety, quality, and accessibility.

As a result, management roles in health care are also expanding from the traditional senior and mid level administrative roles to clinicians taking on increasing management tasks. The current Master of Health Services Management, located within the Department of Epidemiology and Preventive Medicine, primarily focuses on this latter market and in particular the needs of clinicians in the domestic market who seek background knowledge to assist them to take on these roles. This new Masters of Health Administration will primarily target the general management role and will be run in equal partnership with the Faculty of Business and Economics who will deliver the component of the course which will strengthen the general management component through block days.

The course is designed from the existing Master of Health Services Management, located within the Department of Epidemiology and Preventive Medicine, primarily focuses on this latter market and will be run in equal partnership with the Faculty of Business and Economics who will deliver the component of the course which will strengthen the general management component through block days.

This program is designed to meet the needs of registered medical and dental practitioners in private and public health systems, particularly their perioperative management. Pre-admission for surgical patients are getting older and sicker. Many clinicians caring for surgical patients are challenged by the growing complexity of these patients, particularly their perioperative management. Pre-admission clinics are caring for surgical patients are challenged by the growing complexity of these patients, particularly their perioperative management. Pre-admission clinics are caring for surgical patients are challenged by the growing complexity of these patients, particularly their perioperative management. Pre-admission clinics are caring for surgical patients are challenged by the growing complexity of these patients, particularly their perioperative management. Pre-admission clinics are caring for surgical patients are challenged by the growing complexity of these patients, particularly their perioperative management.

The need for more formal training in clinical forensic medicine and forensic odontology has been recognised by justice organisations for some years.

This course is designed to further develop medical and dental practitioners knowledge and skills so that they are able to provide a high quality clinical forensic medical and dental service. Material covered will include ethical and legal issues arising in forensic practice, the skills required to interpret injury patterns, identify unknown human remains, knowledge of general forensic science methods, and communication with the justice system.

Students may be eligible to take an alternative exit from the program with a Graduate Diploma in Forensic Medicine, provided the requirements of the alternative exit have been met.

Course code: 3412

Master of International Health

This course provides participants with the skills necessary to design, implement and evaluate major public health programs in developing countries. This program is offered in collaboration with the Michael Kirby Centre for Public Health, SFPHP, and the Centre for International Health at the Burnet Institute for Medical Research and Public Health. Course content is largely based on field experiences gained in health development projects in more than 20 countries in Asia, the Pacific and Africa.

Students learn about human rights, ethics, law and development. Public health issues are presented in the broader context of economic and social development, stressing cultural, political, gender and environmental influences, and the impact of armed conflict and population migration. Students may be eligible to exit from the master’s with the Graduate Diploma in International Health.

Course code: 3874

Master of Medical Ultrasound

This course is designed for appropriately qualified health professionals wishing to become Sonographers. After completion of the first two units of the course (SONA200 and SONA410), students must be engaged in supervised clinical ultrasound training practice for a minimum of 3 days per week (or equivalent). Monash University cannot assist students in gaining supervised clinical training placements. Students can exit the course after 48 credit points (minimum 2 years of study) with a Graduate Diploma in Ultrasound which meets the qualification requirements for accreditation as a Sonographer. The final year of the course focuses on developing research skills via an ultrasound research project.

This course is fully supported by traditionally recognised academics, sonographers and researchers.

Course code: 3433

The final year of the course focuses on developing research skills via an ultrasound research project.

This course is fully supported by traditionally recognised academics, sonographers and researchers.

Course code: 3433

Master of Radiation Therapy

This course is a two-year, accelerated learning program. It enables students with a first degree in science or a related health discipline to obtain a professional entry level qualification at a postgraduate level of study. Upon successful completion of the program, graduates are eligible to apply for general registration as a Radiation Therapist from the Medical Radiation Practice Board of Australia. Employment opportunities for graduates exist in both public and private health sectors, in metropolitan and regional Australia. This is the only distance learning graduate entry radiation therapy program offered in Australia and it may be available for interstate students to study in their home state.

Course code: 3889

Master of Surgery

Surgical patients are getting older and sicker. Many clinicians caring for surgical patients are challenged by the growing complexity of these patients, particularly their perioperative management. Pre-admission clinics are caring for surgical patients are challenged by the growing complexity of these patients, particularly their perioperative management. Pre-admission clinics are caring for surgical patients are challenged by the growing complexity of these patients, particularly their perioperative management. Pre-admission clinics are caring for surgical patients are challenged by the growing complexity of these patients, particularly their perioperative management. Pre-admission clinics are caring for surgical patients are challenged by the growing complexity of these patients, particularly their perioperative management.

This course is designed to meet the needs of registered medical and health practitioners by equipping its candidates to work competently and effectively in the ever-changing medical environment.

Course code: 3896
Master of Mental Health Science

LOCATION: Off-campus only (Off-campus study with mandatory on-campus workshop requirement)

ENTRY REQUIREMENTS: Page 97

DURATION: 3 Years (part-time only)

The Master of Mental Health Science will provide you with advanced training and knowledge up-skilling in the disciplines dealing with mental health issues in community and clinical environments. The Master of Mental Health Science is available by coursework or minor thesis and provides the opportunity to exit the course at a Graduate Certificate or Graduate Diploma level as long as requirements for that alternative exit have been met.

The program offers specialisations in Community Mental Health and Child Psychotherapy.

Course code: 4508

Master of Nursing Practice

LOCATION: Clayton

INTAKE: February and July

ENTRY REQUIREMENTS: Page 97

DURATION: 2 Years

The Master of Nursing Practice will provide a professional nursing qualification for individuals who have gained an Australian bachelor's degree (or equivalent) from a recognised university. This program builds on prior knowledge and skills and facilitates the development of professional nursing practice through engagement with expert clinical nurses, contemporary nursing theory and evidence.

Course code: 3966

Master of Occupational Therapy Practice

LOCATION: Peninsula

INTAKE: July

ENTRY REQUIREMENTS: Page 97

DURATION: 2 Years

This two-year, accelerated learning program will enable students with a first degree other than Occupational Therapy, but in a related field, to obtain a professional entry-level qualification to practice as an Occupational Therapist. It requires full-time enrolment over two years from July to May (mid-year intake) and operates over 72 weeks. This includes 1000 hours of fieldwork education commensurate with World Federation of Occupational Therapists (WFOT) minimum Standards for the Education of Occupational Therapists (2005).

The course is an integrated curriculum centred on Scenario-Based Learning (SBL). The two years of the SBL curriculum will be organised into the following units: Foundations of Occupational Therapy, Humans as Occupational Beings, Occupational Performance, Enabling Change in Human Occupation, Transition to Practice and Advanced Professional Practice. You will also complete an extensive practice based project.

Course code: 4529

Master of Public Health (4529)

LOCATION: Monash Online

INTAKE: January, March, May, July, August, October

ENTRY REQUIREMENTS: Page 97

DURATION: 2 years (part-time)

The course provides the full range of quantitative, analytical and communication skills necessary to work in the broad domain of public health. It also provides skills in the quantitative methods of the population-based health sciences and their problem-solving application for primary care provision within Australia and developing countries.

Course code: 4529

Master of Social Work (Qualifying)

LOCATION: Caulfield

INTAKE: February

ENTRY REQUIREMENTS: Page 97

DURATION: 2 Years

The MSW Qualifying curriculum meets the Australian Association of Social Workers (AASW) requirements and builds on Monash Social Work areas of strength, especially in gender studies, sustainability, child wellbeing and health. The degree includes considerable emphasis on community engagement and leadership, and provides opportunities to work with organisations to complete projects and research. The MSW (Qualifying) is a coursework degree with theoretical, skills development and supervised professional practice units. The course provides opportunities for group-based research and integration of theory and practice. Theoretical content builds on knowledge acquired by graduates in previous higher education, while social work skills components and professional practice units introduce students to contemporary social work practice.

Course code: 3969

Master of Public Health (0046)

LOCATION: Alfred Hospital

INTAKE: February and July

ENTRY REQUIREMENTS: Page 97

DURATION: 1.5 Years

This course provides students with the full range of quantitative, analytical and communication skills necessary to work in the broad domain of public health. It also provides skills in the quantitative methods of the population based health sciences and their problem-solving application for primary care provision within Australia and developing countries.

This Master of Public Health course offers a greater number of units for advanced study and research. Students have the opportunity to self-select a stream to meet their specialist needs. Health specialisation streams are offered in clinical research methods, health economics, disease prevention and health promotion, health services management, international health, occupational and environmental health, and research. Study units are offered in flexible delivery mode, e.g. on-campus, off-campus, block mode, or online.

Course code: 0046

Master of Occupational and Environmental Health

LOCATION: Alfred Hospital

INTAKE: February and July

ENTRY REQUIREMENTS: Page 97

DURATION: 1.5 Years

This course prepares registered nurses with leadership skills to plan, implement, coordinate and evaluate health care, as well as formulate policy for a diverse and multicultural society. Graduates will be well equipped to contribute to the health of individuals, families, communities and the development of the profession. The program is designed using flexible teaching delivery options and provides for a range of individual career pathways, including specialist clinical nursing, education, and research or management positions within industry, government or independent professional practice. The program can be taken by (a) coursework, or (b) coursework and a 15,000-word research project, or (c) coursework and a 25,000-word research thesis. Major study options are available to prepare nurses for advanced practice roles in a range of clinical and non-clinical specialities.

Course code: 1250

Master of Occupational Therapy

LOCATION: Peninsula

INTAKE: February and July

ENTRY REQUIREMENTS: Page 97

DURATION: 2 Years

The Master of Therapy Practice will provide you with the skills necessary to evaluate health problems in communities associated with industrial activities, and control related hazards and risks. It is suitable for medical practitioners, nurses, allied health personnel, scientists and occupational health and safety managers. It comprises ten core units and two electives. Core units cover OHS, epidemiology, biostatistics, chemical and biological hazards, workplace hazard assessment and control, ergonomic and physical hazards, the psychosocial work environment, environmental influences on health, safety management systems and research methods.

You may be eligible to exit from the master's course with the Graduate Certificate in Occupational Health or the Graduate Diploma in Occupational and Environmental Health if you meet requirements. The graduate diploma and the master's degree are accredited by the Australian OHS Education Board and are recognised by the Australasian Faculty of Occupational and Environmental Medicine training curriculum (AFEM), Royal Australian College of General Practitioners’ (RACGP) points can be applied for annually.

Coursework continued
The Master of Biomedical Science (MBiomedSci) is a research degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty's principal biomedical research areas and strengths. Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.

Course code: 2977

### Master of Biomedical Science Preliminary

**LOCATION**
Various

**INTAKE**
February and July

**FEES p.a.**
$29,800

**DURATION**
1 Year

The Master of Biomedical Science Preliminary (MBiomedSciP) is designed for students who do not have the equivalent of a class 1 or class 2A honours degree in a relevant discipline. For graduates with only a bachelor's degree in a relevant field and who have not attempted honours in that field, admission to MBiomedSciP preliminary will normally require at least a credit grade average in 24 points of relevant third-year units, or appropriate additional training and experience. International candidates must complete the MBiomedSciP preliminary program and obtain results equivalent to class 2A honours (H2A) or better for admission into MBiomedSci. The MBiomedSciP preliminary is not an awardable degree. Candidates should complete their program of study within 12 months full-time. Students who pass MBiomedSciP preliminary but who do not wish to continue, or do not achieve class 2A honours or above, will be offered the exit award of the Postgraduate Diploma in Biomedical Sciences.

Candidates will be required to undertake a major research thesis of 75% of the entire course. The thesis should embody the results of the candidate's investigation, which demonstrates independence of thought and the candidate's ability to carry out research in that discipline. The remaining 25% of the course will comprise coursework such as a literature review and/or statistics classes, and is specified by the enrolling department.

**DURATION**
3 – 4 Years

The Doctor of Philosophy (PhD) is a research degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty's principal research areas and strengths. Candidates undertake a research project under the direct supervision of a member of the faculty. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four-years of equivalent full-time study. Your degree will consist of the research thesis (or alternative approved outputs) and will require the completion of research training activities or coursework.

Course code: 0047
The Doctor of Psychology in Clinical Neuropsychology (DPsych) is a research degree. Throughout the course, you will conduct a major, supervised, research program, complete three years of intensive coursework, and undertake 1515 hours of clinical placements. You will graduate as an effective researcher, able to review research literature, apply research techniques to your field of study, and produce high-quality written work for publication.

The discipline of clinical neuropsychology applies knowledge of cognition, emotion and behaviour to the assessment and treatment of children and adults with conditions affecting the brain. A feature of the Doctor of Psychology (DPsych) in Clinical Neuropsychology course is that training in clinical neuropsychology is extended through specialisation in a choice of areas, including rehabilitation, child and adolescent neuropsychology, geriatric neuropsychology and psychiatric neuropsychology.

This degree is accredited by the Australian Psychology Accreditation Council. On completion, you can apply for membership of the Australian Psychological Society and full registration as a psychologist.

Course code: 2932

The Doctor of Psychology in Clinical Psychology (DPsych) is a research degree. Throughout the course, you will conduct a major, supervised, research program, complete three years of intensive coursework, and undertake 1500 hours of clinical placements. You will graduate as an effective researcher, able to review research literature, apply research techniques to your field of study, and produce high-quality written work for publication. A feature of the program is that training in clinical psychology is extended through specialisation in either child, adolescent and family psychology or advanced adult clinical psychology.

This degree is accredited by the Australian Psychology Accreditation Council. On completion, you can apply for membership of the Australian Psychological Society and full registration as a psychologist. Gaining endorsement as a clinical psychologist requires another year of approved, supervised, full-time equivalent practice under a supervisor approved by the Psychology Board of Australia.

Join Australia’s largest and most experienced group of pharmaceutical scientists and pharmacy practice investigators as we undertake basic and translational drug discovery, drug delivery and drug development research at Monash Institute of Pharmaceutical Sciences and ensure enhanced patient safety with the Centre for Medicine Use and Safety.

At Monash, we combine innovation and tradition to provide you with an education that will take you wherever you want to go – in your work and in the world.

- Be a part of research that brings real change to people’s lives by combating influenza, malaria and cancer.
- Join the major players in international health care, pharmaceutical and biomedical communities.
- Focus on advanced models of practice.

Pharmacy and Pharmaceutical Sciences

Maria Chan
Senior Clinical Pharmacist, Royal Children’s Hospital. Bachelor of Pharmacy, Master of Clinical Pharmacy.

“Since registering as a pharmacist in 2001, I’ve worked extensively in paediatric hospital pharmacy and gained significant practical clinical experience. I chose to study the Master of Clinical Pharmacy to give me the skills to determine best current practice, develop guidelines to promote safe and effective use of medication and improve patient care and outcomes.”

Rohan Volpe
PhD Candidate, Monash Institute of Pharmaceutical Sciences.

“Completing my PhD at the Monash Institute of Pharmaceutical Sciences has offered me the opportunity to learn from some of the world’s leading scientists in an environment that is committed to the design and development of better medicines, encourages collaboration and personal growth.”

Coursework

Graduate Certificate in Pharmacy Practice (Internship)

LOCATION: Off-campus
INTAKE: February and July
FEES p.a.: $23,100
DURATION: 2 Years (part-time only)

The Graduate Certificate in Pharmacy Practice (Internship) assists pharmacy graduates throughout their internship year to achieve the competencies required for registration as independent, competent professionals.

The course has a very practical focus that helps interns consolidate and build upon the knowledge and skills gained as an undergraduate and apply these to their practice as a pharmacist. In addition to the internship program component, students can undertake further study in specific areas of practice by undertaking elective units which cover pharmacy practice, clinical pharmacy, economics and wound care relevant to pharmacy.

Course code: 3460

Graduate Certificate in Wound Care

LOCATION: Off-campus
INTAKE: February and July
FEES p.a.: $23,100
DURATION: 1.5 Years (part-time only)

The Graduate Certificate in Wound Care assists health professionals to develop their understanding of wound care and upgrade their qualifications in this specialty area. The core component of this course will provide health care professionals with the theoretical foundation for contemporary wound care practices. Students are also provided with an opportunity to explore topics of interest or specialty practice from a range of elective units.

Course code: 2982

Graduate Diploma in Wound Care

LOCATION: Off-campus
INTAKE: February and July
FEES p.a.: $23,100
DURATION: 2 Years (part-time only)

The Graduate Diploma in wound care builds on the foundational content of the Graduate Certificate and offers health professionals an opportunity to gain a detailed understanding of different aspects of wound management. Students are able to expand their knowledge and skills in specific wound care specialties depending on their discipline or area of interest. Students are expected to attend a compulsory one-week residential (on-campus) study block to participate in a series of practical workshops and wound clinic observations.

Course code: 2984

Master of Pharmacy Practice

LOCATION: Off-campus
INTAKE: February and July
FEES p.a.: $23,100
DURATION: 4 Years (part-time only)

The Master of Pharmacy Practice is an off-campus, coursework-based degree, flexible enough to fit into any pharmacist's professional development plan. The course is designed to enable students to develop a deep and more specialised range of attributes that builds upon the foundations of an undergraduate pharmacy degree.

Course code: 3467

Graduate Certificate in Pharmacy Practice

LOCATION: Off-campus
INTAKE: February and July
FEES p.a.: $23,100
DURATION: 2 Years (part-time only)

The Graduate Certificate in Pharmacy Practice is designed for registered pharmacists and allows students to develop further knowledge and skills in a range of pharmacy practice-related areas. It provides an opportunity for ongoing professional development at the same time as earning an additional qualification. Students can undertake further study in specific areas of practice by undertaking elective units which cover pharmacy practice, clinical pharmacy, economics and wound care relevant to pharmacy.

Course code: 3468

Graduate Diploma in Clinical Pharmacy

LOCATION: Off-campus
INTAKE: February and July
FEES p.a.: $23,100
DURATION: 4 Years (part-time only)

The Graduate Diploma in Clinical Pharmacy allows students to develop further knowledge and skills in a range of pharmacy practice-related areas. It provides an opportunity for ongoing professional development at the same time as earning an additional qualification. Students can specialise in specific areas of practice by undertaking elective units which cover pharmacy practice, clinical pharmacy, economics and wound care relevant to pharmacy.

Course code: 3478

Master of Clinical Pharmacy

LOCATION: Off-campus
INTAKE: February and July
FEES p.a.: $23,100
DURATION: 2 – 4 years

The Master of Clinical Pharmacy is designed to enable students to establish skills in evidence-based practice, quality use of medicine, practice-based research and provision of clinical pharmacy services at a high level. Areas of study include biostatistics, epidemiology, theory and practice of evidence-based medicine, interpretation of clinical data and pharmacotheraphy and clinical research. Each student will complete a four-week specialty rotation with an experienced clinical preceptor and will carry out a small practice-based research project. Students must arrange the necessary time release from their employer to complete the placement and research project.

Course code: 3464

Master of Wound Care

LOCATION: Off-campus
INTAKE: February and July
FEES p.a.: $23,100
DURATION: 4 Years (part-time only)

The Master of Wound Care prepares the health professional for advanced practice in wound care. The masters program consolidates the theoretical and practical skills acquired in the Graduate Diploma in Wound Care and extends the student's clinical reasoning skills in the critical appraisal of contemporary wound care practices. Students undertake a clinical project which explores the evidential basis for current practice and potential improvement of a complex wound care problem in the student’s workplace or within a health care setting.

Doctor of Philosophy

**Joint Award and Doctoral Training Centre with The University of Nottingham**

**LOCATION** Parkville

**INTAKE** February and July

**DURATION** 4 Years

Together Monash and the University of Nottingham have assembled the world’s leading G protein-coupled receptor (GPCR) biology, astrotoxicology and cell signaling expertise to train the next generation of international leaders in molecular pharmacology and drug discovery biology. The new Joint International PhD in Molecular Pharmacology and Drug Discovery Biology is an elite PhD program developed for the world’s brightest biomedical science students to enable them to develop more effective and selective therapies to tackle diseases of global relevance to human suffering. Participants in the Joint Award PhD will be members of our new Doctoral Training Centre (DTC) for Molecular Pharmacology and Drug Discovery Biology. Core training delivered in the first year will provide students with skill sets that are essential for their development as creative and independent scientists. Further training and workshops in molecular pharmacology and drug discovery biology delivered in years 2 to 4 will provide specialised training in specific aspects of pharmacology. An advanced skills workshop in year 4 will equip students with the necessary skills to compete for prestigious positions in academia and industry. This program will also offer laboratory rotations in year 1 and industry placement during year 4.

Master of Pharmaceutical Science

**LOCATION** Parkville

**INTAKE** February and July

**DURATION** 2 Years

The Monash Faculty of Pharmacy and Pharmaceutical Sciences is internationally renowned as a key research centre. It is home to the Monash Institute of Pharmaceutical Sciences, the largest and most experienced group of pharmaceutical scientists in Australia. The faculty’s research students have access to dedicated research buildings, modern laboratories, an extensive library and first-rate research equipment. The faculty offers research programs in the areas of:

- Drug candidate optimisation
- Drug discovery biology
- Drug discovery, disposition and dynamics
- Medicinal chemistry
- Medicine use and safety

Research students are supervised by leading international experts in the field, and the research conducted by research graduates is highly regarded within Australia and internationally.

The faculty has established a strong reputation with industry, both nationally and internationally, and acts as a resource for industry and research institutes involved in the pharmaceutical and biomedical sciences. The PhD program is offered to elite applicants with high academic standing, normally a master’s degree or an honours degree at H1 or H2A level in a relevant discipline.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

Master of Pharmaceutical Science

**LOCATION** Parkville

**INTAKE** February and July

**DURATION** 3 – 4 Years

Monash’s Faculty of Pharmacy and Pharmaceutical Sciences is internationally renowned as a key research centre. It is home to the Monash Institute of Pharmaceutical Sciences, the largest and most experienced group of pharmaceutical scientists in Australia. The faculty’s research students have access to dedicated research buildings, modern laboratories, an extensive library and first-rate research equipment. The faculty offers research programs in the areas of:

- Medicinal chemistry and drug action
- Drug discovery, disposition and dynamics
- Drug discovery biology
- Drug candidate optimisation
- Medicinal chemistry and drug action
- Medicine use and safety

Research students are supervised by leading international experts in the field, and the research conducted is highly regarded within Australia and internationally.

In academia and industry. This program will also offer laboratory rotations in year 1 and industry placement during year 4.

Course code: 3473

---
Study science as a postgraduate student at Monash University and you will become part of a vibrant, dynamic and world-renowned community at the forefront of research spanning Biological Sciences, Chemistry, Physics and Astronomy, Mathematical Science and Earth, Atmosphere and Environmental Sciences. Your postgraduate studies at Monash enable you to pursue your individual area of interest in depth and contribute to the advancement of knowledge within this specialist field. Through supervised research, you will become a part of a community of scholars working on finding solutions to real-world problems. Many exciting discoveries have been made while undertaking postgraduate studies at Monash. You, too, could be a part of this, enhancing your career prospects and, in your own way, making a difference to the world around us.

Take your passion for science to the next level.
- Address some of society’s greatest challenges through world-class research programs.
- Find the support and stimulation you need to push the boundaries.
- Build an enviable reputation through your research achievements.
- Join our internationally respected community of scientists.

monash.edu/science

“In my experience, the leadership of Monash are committed to research excellence. They are willing to take risks to support interesting projects and initiatives, rather than always playing it safe. You see this in the infrastructure, scholarships and grants on offer. As a researcher, it’s an exciting place to be.”

— Beth McGraw
School of Biological Sciences
Faculty of Science

Rosemarie Herbert
Bachelor of Science and a Bachelor of Biomedical Science, Current PhD in Science.

“I loved the Biomedical science units and I did some summer vacation work in biochemistry, and that helped me make a decision that I wanted to do research. My ultimate goal is to combine research and teaching. My research is in the Eliminate Dengue lab. The research that we do is injecting Wolbachia bacteria into mosquitoes to block Dengue virus transmission, and my research is thinking about what kind of genes are regulated when mosquitoes have Dengue virus. I’m also working in the insectary raising mosquitoes for my experiments, which involves making sure I have the human volunteers to feed my mosquitoes.”

— Rosemarie Herbert
School of Biological Sciences
Faculty of Science
Do you have an aptitude and passion for mathematics and statistics, a keen interest in finance and insurance and want to work for a major financial organisation in finance, insurance or the money market? This course will provide you with a deep understanding of the world of finance, and give you the ability to speak its 'language'. It combines theory with hands-on practical skills via an industry placement or research project – ensuring you graduate with the right skills increasingly being sought by banks and other financial institutions.

The Master of Financial Mathematics offers advanced training in the core areas of stochastic, financial and insurance modelling, statistical analysis and computational methodology, as well as in a wide range of elective topics from economics, econometrics, finance, mathematics and probability. Graduates of this course are likely to enter specialist careers in research departments within banks, insurance and consultancy firms or derivatives of valuation and portfolio management within investment houses.

Course code: S6001

A PhD in the Faculty of Science allows candidates to independently formulate and investigate a research problem that will make a significant contribution to the discipline in which the candidate is enrolled. Monash Science PhD graduates are highly employable, with many pursuing careers in academia and industry around the world. Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four-years of equivalent full-time study.

Your degree will consist of the research thesis (or alternative approved outputs) and will require the completion of research training activities or coursework.

Course code: 0057

This master’s by research degree is available as an alternative to the faculty-based Master of Science (by research) degree. The Master of Philosophy permits students to show independence of thought and demonstrate their ability to carry out research in their chosen discipline.

Course code: 3521
Semester dates for 2016

Semester 1
- Orientation: 22 February – 26 February
- Classes: 29 February – 27 May
- Mid-semester break: 25 March – 1 April
- Exam period: 6 June – 24 June

Semester 2
- Orientation: 18 July – 22 July
- Classes: 25 July – 21 October
- Mid-semester break: 26 September – 30 September
- Exam period: 31 October – 18 November

Fees

All postgraduate coursework programs are offered as full-fee places. Students in these courses pay the full tuition cost of the course and must make the payment upfront each semester. Fee and duration quoted are for study at Australian campuses only. Fees are quoted in Australian dollars, and is the annual average fee per 48 credit points of study in each course for 2016 unless otherwise stated. Fees are adjusted annually. Please see monash.edu/fees for updates.

FEE-HELP loan

The FEE-HELP scheme provides an interest-free, income-contingent government loan facility for students. Australian citizens and holders of a permanent humanitarian visa are eligible for the FEE-HELP scheme. Eligible students wishing to fund part or all of their tuition fees through FEE-HELP must complete the loan request form by the relevant census date and provide a tax file number. A student can elect to pay a portion of fees directly to the University and the remaining debt will be registered as a loan through the Australian Taxation Office (ATO). Students will commence repaying any HELP loan through the ATO once their income reaches the minimum threshold for compulsory repayment. A loan for up to the full tuition fee charged for the course can be accessed, but there is a lifetime limit.

Commonwealth Supported Places (CSPs)

For CSPs, units are grouped into three broad bands. The band in which the unit is located determines the student contribution amount for that unit. Usually, the units a student is required to enrol in to complete their course will each fall into the same band. The table outlines the annual student contribution amount for a full-time student who is enrolled in a standard full-time course where all units are in the same band. In a standard full-time year, students typically study 48 credit points.

Research Training Scheme (RTS)

Australian citizens, New Zealand citizens or Australian permanent residents undertaking a research degree at Monash University are granted a government-funded Research Training Scheme (RTS) place. Under this scheme, research students receive two full-time equivalent years of funding for a research master’s course and four years of full-time equivalent funding for doctoral studies. Under the RTS, it is a statutory requirement that all higher degree by research students provide details of previous enrolments in research programs to determine eligibility for RTS funding.

Scholarships

Monash University is committed to attracting academic high achievers and producing internationally competitive graduates.

Coursework scholarships

A variety of scholarships and bursaries are available for prospective and continuing coursework postgraduate students. The number of scholarship and bursary offers made in any one year varies. For full details on scholarships and bursaries available for coursework postgraduate students, please see monash.edu/scholarships.

Research scholarships

The Australian Government's Research Training Scheme covers your research course fees if you're an Australian or New Zealand citizen or Australian permanent resident. There are various other scholarships and bursaries available to assist with other costs.

Fees for coursework may be paid through the FEE-HELP loan. For more information, contact Monash Connect at your campus or visit the Department of Education and Training.

monash.edu/scholarships
Admission and application

Applying for postgraduate degrees by coursework

Apply for coursework course: monash.edu/study/apply

Coursework programs
Applications for postgraduate coursework programs can be made online via monash.edu/study/apply except for the Master of Teaching. Applicants for this course must apply through the Victorian Tertiary Admissions Centre at: vtac.edu.au

All applicants for coursework programs must meet the institutional English language requirement as outlined at: monash.edu/admissions/english-language-requirements.html

Applying for postgraduate degrees by research

Apply for research course: monash.edu/migr/apply

PhD, Master of Philosophy, Master’s by Research, Professional Doctorate.

All research degree and scholarship applicants must apply using the online form at:

monash.edu/migr/apply

Applicants intending to study at the Sunway campus (Malaysia) should access the form through the campus website at:

monash.edu.my/research

For applications to Sunway campus, (Malaysia) a fee of MYR100 is payable to Monash University Malaysia.

When should I apply?
Research degree-only applications maybe submitted at any time of the year, but restrictions may apply to your course commencement date if you must complete any coursework as part of the degree. Applications for the university’s two research scholarships rounds close on 31 October and 31 May each year. Scholarship applicants will be notified of the outcome of their application approximately six to eight weeks after the closing date.

Step 1: Check your eligibility
Once you know the degree you are interested in, check your eligibility for the course and a scholarship.

monash.edu/migr/apply/eligibility

Our scholarship rounds are very competitive. Most scholarships require the equivalent of a first-class honours degree from Monash University. You’re assessed for all scholarships and grants for which you are eligible when you apply.

Step 2: Find a supervisor and submit a research proposal
Research degree applications may only be submitted once you have obtained an invitation to apply from the faculty at which you will be enrolled.

In order to obtain an invitation you need to:

- complete an expression of interest and/or
- find a supervisor who agrees to supervise your research.

It may take you up to four weeks to obtain an invitation. You should initiate the process to obtain an invitation not less than four weeks prior to the date on which you expect to submit your application. Scholarship applicants are required to initiate this process no later than 30 April and 30 September for the mid-year and end of year rounds respectively.

Different faculties have different processes, so it is important that you read and follow the instructions that each faculty provides. This information is available at:

monash.edu/migr/apply/invitation

We encourage you to seek further information about the research expertise of academic staff through the websites and brochures of research centres, faculties, schools and departments.

Step 3: Apply online
Apply for entry into a research degree online at:

monash.edu/migr/apply

If you need assistance completing the form please check the guide to completing the online form at:

monash.edu.au/migr/apply/application/guide

You apply for our research degrees and scholarships online using the same application form.

Step 4: Your application is assessed
Once you have submitted your application it will be assessed and approved by the Monash University Institute of Graduate Research, the faculty and academic unit at which you will be enrolled. The duration of this process can vary but should take no longer than six weeks.

If your application is successful, you will be sent an offer pack including:

- an offer letter
- an acceptance form and instructions
- registration and enrolment details.

Step 5: Accept your offer
Read your offer letter and offer pack carefully to know how to accept your offer and enrol in your course.

Step 6: Enrolment pack
After accepting your offer to join the Monash Research community, you must formally enrol. Details of the enrolment process you need to follow will be provided in your letter of offer. International research candidates complete their enrolment once they have arrived on campus.
## Entry requirements by faculty

<table>
<thead>
<tr>

<tbody>
<tr>
<td><strong>Art, Design and Architecture</strong></td>
<td></td>
</tr>
<tr>
<td>Master of Architecture</td>
<td>An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in architecture with a minimum 65% weighted average in the final year of the degree. A research qualification must have been completed within five years of the proposed commencement of the master’s program. Applicants should be accompanied by a thesis of at least 30 images of recent original work, clearly numbered, with a corresponding list of details attached and a current academic and professional curriculum vitae. The application process will be made up of a three-stage process involving an interview with at least two people. Applicants must ensure that all requirements are met and that the program is completed within five years of the proposed commencement of the master’s program.</td>

<tr>
<td>Course code: A5023</td>
<td></td>
</tr>
<tr>
<td><strong>Research</strong></td>
<td></td>
</tr>
<tr>
<td>Master of Arts</td>
<td>Admission to the MA Arts requires one of the following qualifications in a relevant field: a four-year Australian or New Zealand bachelor’s degree with an overall result of a minimum upper HB (mark of 65 or above) in a honours year (normally with a research component in the fourth year); or an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of a minimum upper HB (mark of 65 or above); or an Australian or New Zealand coursework master’s degree with a significant research component and an overall result of upper HB (mark of 65 or above); or an Australian or New Zealand coursework master’s degree with an overall result of a minimum upper HB (mark of 65 or above); or qualifications or experience that the Graduate Research Committee considers to be equivalent to, or a satisfactory substitute for, the above. Applicants intending to produce a non-standard thesis in Creative Writing, Music Composition, Music Performance or Theatre Performance must also demonstrate substantial experience in the field.</td>
</tr>
<tr>
<td>Course code: A5003</td>
<td></td>
</tr>
<tr>
<td>Doctor of Philosophy</td>
<td>Admission to doctoral candidature requires one of the following qualifications in a relevant field: a four-year Australian or New Zealand bachelor’s degree with an overall result of H2A or above (normally with a research component in the fourth year); or an Australian or New Zealand master’s preliminary qualification with a significant research component and an overall result of a minimum upper HB (mark of 65 or above); or an Australian or New Zealand coursework master’s degree with a significant research component and an overall result of Distinction or above; or an Australian or New Zealand research master’s degree with an overall result of Distinction or above; or a qualification considered equivalent to one of the above.</td>
</tr>
<tr>
<td>Course code: A4030</td>
<td></td>
</tr>
<tr>
<td>Doctor of Philosophy (Journalism)</td>
<td>Admission to the PhD Journalism will require one of the following qualifications in a relevant field: a four-year Australian or New Zealand bachelor’s degree with an equivalent or higher degree in journalism or a related discipline as well as substantial documented professional experience in the field; or an Australian or New Zealand coursework master’s degree with a significant research component and an overall result of H2A or above (normally with a research component in the fourth year); or an Australian or New Zealand coursework master’s degree with a significant research component and an overall result of Distinction or above; or an Australian or New Zealand research master’s degree with a significant research component and an overall result of Distinction or above; or a qualification considered equivalent to one of the above.</td>
</tr>
<tr>
<td>Course code: A4010</td>
<td></td>
</tr>
</tbody>
</table>
Admission to the PhD (Theatre Performance) will require one of the following qualifications in Theatre, Performing Arts or a related discipline as well as substantial documented practical experience in the field:

- a four-year Australian or New Zealand bachelor’s degree with an overall result of H2A or above (normally with a research component in the fourth year) or an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of H2A or above; or
- an Australian or New Zealand master’s preliminary qualification with a significant research component conducted at Distinction or above, and an overall result of Distinction or above; or
- an Australian or New Zealand master’s research master’s degree with an overall result of H2A or above; or
- a qualification considered equivalent to one of the above (a minimum of a bachelor’s degree with substantial professional experience in the field)

Applicants will be required to perform a 30 minute audition followed by a 30 minute interview. In the case of overseas or interstate applicants, a video recording of an audition may be recognized in lieu of an audition. Where the audition process, deemed necessary by the faculty, is deemed to be suitable, applicants may be invited to attend an interview. Applicants must also submit evidence of practical work in the field, which will be considered on a case-by-case basis. Further details are available from the faculty.

A representative selection of the candidature’s performance work, in the precision genre in which the candidate proposes to work (e.g. audio visual recordings and performance highlights).

A research proposal of 2-3 pages addressing the following:

- Research question(s) / Methodologies of the research
- Background to the research
- Examples of comparative practice as research and associated literature
- Aims of the research
- Proposed structure of the performance project
- 3 horns: a year reflecting the candidate’s interest in the degree and CD/CDI/CD/CDI, the candidate’s professional interests, previous performance projects, and publications.

Admission to the PhD (Translation Studies) will require one of the following qualifications in translation studies, literary or cultural and intercultural studies:

- a four-year Australian or New Zealand bachelor’s degree with an overall result of H2A or above (normally with a research component in the fourth year) or an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of H2A or above; or
- an Australian or New Zealand master’s research master’s degree with a significant research component conducted at Distinction or above, and an overall result of Distinction or above; or
- an Australian or New Zealand research master’s degree with an overall result of H2A or above; or
- a qualification considered equivalent to one of the above (a minimum of a bachelor’s degree with substantial professional experience in the field)

Applicants must provide all relevant information to allow for assessment of your application. Read the work experience information carefully and complete all required documents located at buseco.monash.edu.au/student/forms/index.html. For more information visit business.monash.edu.

Applicants must have completed an Australian bachelor’s degree or an equivalent qualification and a minimum of two years employment experience with at least a 55% average. Students wishing to undertake the research pathway must maintain at least a 70% WAM and be accepted for entry by the Course Coordinator and the Research Director.

Applicants must have completed an Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) with a major in Economics and achieve a Weighted Average Mark (WAM) of 70% or an equivalent GPA as determined by the Faculty. Applicants will be ranked and selected based on their entire academic record.

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in his or her major field of study with a Weighted Average Mark (WAM) of 65% or an equivalent GPA as determined by the Faculty. Applicants will be ranked and selected based on their entire academic record.

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) with a major in Mathematical or quantitative studies, or with a Weighted Average Mark (WAM) of 60% or an equivalent GPA as determined by the Faculty. Applicants will be ranked and selected based on their entire academic record.

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) with a major in Music or a related field, with a Weighted Average Mark (WAM) of 65% or an equivalent GPA as determined by the Faculty. Applicants will be ranked and selected based on their entire academic record.

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in Business Law with a major in Business Law, with a Weighted Average Mark (WAM) of 65% or an equivalent GPA as determined by the Faculty. Applicants will be ranked and selected based on their entire academic record.

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) with a major in Business with a Weighted Average Mark (WAM) of 65% or an equivalent GPA as determined by the Faculty. Applicants will be ranked and selected based on their entire academic record.

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in Business Economics, with a major in Business Economics, with a Weighted Average Mark (WAM) of 65% or an equivalent GPA as determined by the Faculty. Applicants will be ranked and selected based on their entire academic record.

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in Accounting, with a major in Accounting, with a Weighted Average Mark (WAM) of 65% or an equivalent GPA as determined by the Faculty. Applicants will be ranked and selected based on their entire academic record.
**Education**

**Coursework**

- Master of Leadership
  - Course code: 4321
  - A four-year Australian bachelor's degree (or equivalent qualification from a recognized tertiary institution) in a related area with at least a credit (60%) average. Applicants with relevant qualifications from prior studies and/or work experience may be eligible to receive up to 1 year of credit into this course which reduces the duration.

- Master of Counselling
  - Course code: 0077
  - An Australian undergraduate degree (or equivalent qualification from a recognized tertiary institution) with a credit (60%) average. Applicants with relevant qualifications from prior studies and/or work experience may be eligible to receive up to 1 year of credit into this course which reduces the duration.

- Master of Education
  - Course code: C6004
  - A four-year Australian bachelor's degree (or equivalent qualification from a recognized tertiary institution) in a related area with at least a credit (60%) average. Applicants with relevant qualifications from prior studies and/or work experience may be eligible to receive up to 1 year of credit into this course which reduces the duration.

- Master of Educational and Professional Psychology
  - Course code: D6005

- Doctor of Philosophy
  - Course code: 3202
  - Four-years of full-time equivalent university study at Monash University or any other recognized tertiary institution in education or a relevant field (either through a double degree or undergraduate degree plus Graduate Diploma or an honours year) with at least a pass average. The applicant's entire academic record can be taken into consideration when assessing eligibility for the course. Selection officers can place greater importance on studies which demonstrate a commitment to full-time formal education, with a recommendation letter (e.g. reference from an employer), will be considered on a case-by-case basis.

- Master of Education – Thesis Only
  - Course code: 3207

- Master of Educational and Developmental Psychology / Doctor of Philosophy
  - Course code: 3706

**Course Entry requirements/Admission restrictions**

- Master of Leadership
  - A four-year Australian bachelor's degree (or equivalent qualification from a recognized tertiary institution) in a related area with at least a credit (60%) average. Applicants with relevant qualifications from prior studies and/or work experience may be eligible to receive up to 1 year of credit into this course which reduces the duration.

- Master of Counseling
  - A Bachelor of Psychology degree with an upper H2B (a mark of 65 or above). Where the prior study does not include an honours year it should include a research component equivalent to that of an honours year, or qualifications in psychology that demonstrate the ability to propose substantially in an FT degree.

- Master of Educational and Professional Psychology
  - An Australian bachelor's degree (or equivalent qualification from a recognized tertiary institution) with a credit (60%) average. Applicants with relevant qualifications from prior studies and/or work experience may be eligible to receive up to 1 year of credit into this course which reduces the duration.

- Master of Education
  - A Bachelor of Education degree with a major in psychology with a high credit average completed within the last 10 years. Applicants with international qualifications will need to have their qualifications assessed by the Faculty of Education Board and APS. In addition, applicants must provide evidence of demonstrated suitability for work as a professional psychologist determined by completion of a supplementary form and three reference reports (two academic and one professional). Relevant informal or paid work experience, and an interview, is also required.

- Master of Teaching
  - A Bachelor of Education degree with a major in psychology with a high credit average completed within the last 10 years. Applicants with international qualifications will need to have their qualifications assessed by the Faculty of Education Board and APS. In addition, applicants must provide evidence of demonstrated suitability for work as a professional psychologist determined by completion of a supplementary form and three reference reports (two academic and one professional). Relevant informal or paid work experience, and an interview, is also required.

- Doctor of Philosophy
  - A Master of Education degree (or equivalent qualification from a recognized tertiary institution) with a credit (60%) average. Applicants with relevant qualifications from prior studies and/or work experience may be eligible to receive up to 1 year of credit into this course which reduces the duration.

**Engineering**

**Coursework**

- Master of Advanced Engineering
  - Course code: 6001

- Master of Infrastructure Engineering and Management
  - Course code: 3362

- Master of Transport
  - Course code: 3371

- Master of Engineering Science (Research)
  - Course code: 3322

**Course Entry requirements/Admission restrictions**

- Master of Advanced Engineering
  - A Bachelor of Engineering degree, a three-year science or applied science degree with an honours year, or a three-year degree with appropriate postgraduate qualifications. Students can also articulate from the Postgraduate Diploma in Transport and Traffic.

- Master of Infrastructure Engineering and Management
  - A Bachelor of Engineering degree, a three-year science or applied science degree with an honours year, or a three-year degree with appropriate postgraduate qualifications. Students can also articulate from the Postgraduate Diploma in Transport and Traffic.

- Master of Transport
  - A Bachelor of Engineering degree, a three-year science or applied science degree with an honours year, or a three-year degree with appropriate postgraduate qualifications. Students can also articulate from the Postgraduate Diploma in Transport and Traffic.

- Master of Engineering Science (Research)
  - A Bachelor of Engineering degree with honours 1, 2A or 2B from Monash University or any other recognized tertiary institution.

**Information Technology**

**Coursework**

- Graduate Diplomas in Information and Knowledge Management
  - Course code: 3432

- Graduate Diplomas in Data Science
  - Course code: 4321

**Course Entry requirements/Admission restrictions**

- Graduate Diplomas in Information and Knowledge Management
  - An Australian bachelor's degree (or equivalent qualification from a recognized tertiary institution) with at least a pass average. The applicant's entire academic record can be taken into consideration when assessing eligibility for the course. Selection officers can take into consideration when assessing eligibility for the course. Selection officers can place greater importance on studies which demonstrate the ability to propose substantially in an FT degree.

- Graduate Diplomas in Data Science
  - An Australian bachelor's degree (or equivalent qualification from a recognized tertiary institution) with at least a pass average. The applicant's entire academic record can be taken into consideration when assessing eligibility for the course. Selection officers can take into consideration when assessing eligibility for the course. Selection officers can place greater importance on studies which demonstrate the ability to propose substantially in an FT degree.
Course Entry requirements/Admission restrictions

Master of Science (coursework) Code: 012001

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 2.0 on a 4-point scale is required.

Master of Science (research) Code: 012002

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 3.5 on a 4-point scale in research units.

Master of Engineering (coursework) Code: 012003

A bachelor’s degree (or equivalent qualification) in engineering or a cognate discipline. Minimum GPA of 3.0 on a 4-point scale in relevant units.

Master of Engineering (research) Code: 012004

A bachelor’s degree (or equivalent qualification) in engineering or a cognate discipline. Minimum GPA of 3.5 on a 4-point scale in relevant units.

Master of Commerce (coursework) Code: 012005

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 2.5 on a 4-point scale.

Master of Commerce (research) Code: 012006

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 3.0 on a 4-point scale in research units.

Master of Law (coursework) Code: 012007

1. A bachelor’s degree (or equivalent qualification) in law.
2. A bachelor’s degree (or equivalent qualification) in any other discipline plus sufficient work-based or other learning in a cognate field. Minimum GPA of 2.0 on a 4-point scale.

Master of Law (research) Code: 012008

A bachelor’s degree in law or an equivalent qualification that includes a research component. Minimum GPA of 3.5 on a 4-point scale in research units.

Bachelor of Laws (coursework) Code: 012009

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 2.0 on a 4-point scale.

Bachelor of Laws (research) Code: 012010

A bachelor’s degree in law or an equivalent qualification that includes a research component. Minimum GPA of 3.5 on a 4-point scale in research units.

Bachelor of Laws with Advanced Studies (coursework) Code: 012011

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 2.5 on a 4-point scale.

Bachelor of Laws with Advanced Studies (research) Code: 012012

A bachelor’s degree in law or an equivalent qualification that includes a research component. Minimum GPA of 3.5 on a 4-point scale in research units.

Bachelor of Laws with Advanced Studies and Advanced Research (coursework) Code: 012013

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 2.5 on a 4-point scale.

Bachelor of Laws with Advanced Studies and Advanced Research (research) Code: 012014

A bachelor’s degree in law or an equivalent qualification that includes a research component. Minimum GPA of 3.5 on a 4-point scale in research units.

Master of Commerce (cognate) Code: 012015

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 2.0 on a 4-point scale.

Master of Science (cognate) Code: 012016

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 2.0 on a 4-point scale.

Master of Science with Advanced Research (cognate) Code: 012017

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 3.5 on a 4-point scale in research units.

Master of Philosophy (coursework) Code: 012018

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 3.0 on a 4-point scale in research units.

Master of Philosophy (research) Code: 012019

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 3.5 on a 4-point scale in research units.

PhD in Medicine, Nursing and Health Sciences

Entry requirement: Applicants must have completed a Bachelor’s degree in a cognate field.

Master of Advanced Nursing (coursework) Code: 012020

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 2.5 on a 4-point scale.

Master of Advanced Nursing (research) Code: 012021

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 3.0 on a 4-point scale in research units.

Master of Advanced Nursing (Master Practitioner) Code: 012022

A bachelor’s degree (or equivalent qualification) in a cognate field. Minimum GPA of 2.5 on a 4-point scale.
Course Code | Course | Entry requirements/Admission restrictions
---|---|---
3874 | Master of Forensic Medicine | Applicants must have one of the following:
- A graduate with the degree of Bachelor of Medicine/Surgery or Bachelor of Dentistry and have at least three years experience in clinical or dental practice; or
- An Australian Bachelor degree (or equivalent) in any discipline. In addition, applicants will need to demonstrate evidence of previous tertiary level study of a related discipline (such as medicine, nursing, biomedical sciences, radiation therapy, nuclear medicine or other health sciences) and an aptitude for the profession.
- Applicants must be:
  - An Australian Bachelor degree (or equivalent) in an appropriate discipline with a pass average and relevant professional experience; or
  - Applicants holding degrees in other related disciplines (such as medicine, nursing, biomedical sciences, radiation therapy, nuclear medicine or other health sciences) will be assessed on a case-by-case basis by the Department of Medical Imaging and Radiotherapy.

3878 | Master of Clinical Embryology | Applicants must have achieved the following:
- A Bachelor's degree (or an approved equivalent) before proceeding to the master's program. Suitable students with a GPA of greater than 70 would be considered eligible for this program.
- Applicants may have completed the Graduate Certificate in Health Professional Education, the Graduate Certificate in Clinical Simulation and Patient Safety, the Graduate Certificate in Reproductive Sciences, or other relevant qualifications.

3889 | Master of Social Work (Qualifying) | A Bachelor's degree (or an equivalent qualification from a recognised tertiary institution) in an approved field of study.
- Applicants must have completed a degree in psychology or social work.
- Applicants should have a minimum of 1 year experience in a health-related field or an honours degree in mathematics for statistics and an aptitude for advanced mathematical study.

3890 | Master of Social Work | A Bachelor's degree (or equivalent) in social work or a relevant field of study.
- Applicaptes would like to provide evidence of their ability to meet the course practical requirements.
- Extra requirements: Curriculum Vitae (CV), work reference letters and a Statement of Purpose (250 words) outlining the reason why you would like to complete the course.
Pharmacy and Pharmaceutical Sciences

Course Code: 2970
Course name: Graduate Certificate in Wound Care
Course code: 2982
Course name: Master of Biomedical Science
Course code: 0100
Course name: Master of Biomedical Science (Research)
Course code: 2968
Course name: Doctor of Philosophy (Joint Award with the University of Nottingham)
Course code: 0047
Course name: Master of Pharmacy Practice
Course code: 3443
Course name: Master of Pharmacy Practice (Research)
Course code: 3467
Course name: Master of Biomedical Science (Professional)
Course code: 2070
Course name: Master of Pharmaceutical Science

Course Entry requirements/Admission restrictions

Doctor of Philosophy

Duration 2 years:
An Australian bachelor's degree (or equivalent qualification from a recognised tertiary institution) in mathematics with a 65 per cent average or qualification/experience that the faculty considers to be equivalent or a satisfactory substitute for the above.
Completion of units of mathematics with an emphasis on multivariable calculus, linear algebra, probability, statistics and differential equations.
Master of Financial Mathematics
Course code: 2627
Course name: Master of Financial Mathematics
Course code: 3607
Course name: Doctor of Philosophy (Joint Award with the University of Nottingham)
Course code: 2070
Course name: Master of Science

Entry Requirements:

Research

Doctor of Philosophy

Qualifications and experience equivalent to a bachelor's degree in pharmacy, pharmaceutical sciences, science or other related field at level of honours 1 or 2A from a recognised tertiary institution or a master's degree in pharmacy or other relevant field. Students will also need to provide details of publications in refereed journals, conference abstracts and reports or relevant research experience that demonstrates research proficiency.
Doctor of Philosophy

PhD (Joint Award with the University of Nottingham)
Course code: 3607
Course name: Doctor of Philosophy

Qualifications and experience equivalent to a bachelor's degree in pharmacy, pharmaceutical sciences, science or other related field at level of honours 1 or 2A from a recognised tertiary institution or a master's degree in pharmacy or other relevant field. Students will also need to provide details of publications in refereed journals, conference abstracts and reports or relevant research experience that demonstrates research proficiency.

Doctor of Philosophy

PhD
Course code: 3011
Course name: Master of Philosophy

Qualifications and experience equivalent to a bachelor's degree in pharmacy, pharmaceutical sciences, science or other related field at level of honours 1 or 2A from a recognised tertiary institution or a master's degree in pharmacy or other relevant field. Students will also need to provide details of publications in refereed journals, conference abstracts and reports or relevant research experience that demonstrates research proficiency.

Doctor of Philosophy

PhD
Course code: 3001
Course name: Master of Science

Duration 2 years:
A four-year Australian bachelor's degree (or equivalent qualification from a recognised tertiary institution in mathematics) with a 65 per cent average or qualification/experience or a satisfactory substitute that the faculty considers to be equivalent or a satisfactory substitute for the above.

Off-campus study

Remember, you don’t have to be at Monash to study with Monash. Through our online distance learning, you can study with Australia’s biggest and best-known university without ever having to set foot on campus. It’s the perfect option if you need to balance university with work, family and other personal commitments. You’ll study the same units and gain the same qualification as you would if you were on campus.

To apply go to monash.edu/offcampus
