

## 2119- Bachelor of Fine Art (Version 3)

### Course Structure - The course consists of the following areas of study:

The course provides a strong focus of fine art activity oriented to the student's chosen studio.

#### (a) Major studios (60 points)

This is the main study of the course. The major studios are offered at each year stage.

The course offers the following major studios:

- ceramics
- glass
- metals and jewellery
- painting
- photomedia
- printmedia
- sculpture
- tapestry

Students take 60 points in the major studio. In order to permit the possibility of movement between studios at the end of first year (subject to selection) without requiring a repeat of first-year studies, the minimum credit-point requirement for graduation in a studio major is 54.

#### (b) Theory of Art and Design (24 points)

Students study theory, context and cultural aspects of art and design. Twelve points are taken in core units in the first year of study, and a further 12 points are taken in elective theory units in the second and third years of study

#### (c) Professional Practice (6 points)

All students take a professional practice unit

#### (d) Drawing (12 points)

Students take two compulsory 6-point units in the first year. These studies are concerned with the development of perception and visual concepts using drawing. It is anticipated that all students will take further studies in the drawing studio - up to 24 points may be taken this way.

#### (e) Co requisite and complementary Studies (12 points)

Students take 12 points of approved studies which complement their major.

#### (f) Electives (30 points)

Elective studies are selected in consultation with the studio coordinators. Units will generally be taken from those available within the Faculty of Art and Design, but units offered elsewhere in the university are also available. As well as the drawing and digital imaging electives, it is likely that many students may also wish to take photomedia and/or other studio studies, and visual communication.

A typical program of electives might include the following:

- Two units of drawing (12 points)
- Digital imaging (6 points)
- Two units of other studio studies (12 points)

#### (g) Occupational health and safety (0 points)

A compulsory health and safety unit which deals with issues relevant to art and design

For any variations to the course map students must seek approval from the course coordinator
